To whom it may concern:

I am writing to express my opposition to a marijuana growing facility being opened directly across the street from my house.

The neighborhood that this facility would be in is a small close knit residential neighborhood where the majority of the homeowners have lived for the past 10-30 years. All of the houses are close by each other on 100' or 110' foot wide plots of land. It is a relatively quiet and small neighborhood of about 25 homes that contain approximately 20 plus children aged 1-16 years old.

In the past we have had suspicious behavior within our neighborhood. At this house in particular where the facility is to be located at a neighbor interrupted a break-in last year. In response to this we created a private face book page which the majority of the homeowners are members of in an attempt to keep each other notified of activity going on within our neighborhood. This has been a great asset to us as it has also allowed neighbors to get to know each other who had not met personally. Our neighborhood has quieted down and now we usually only have roaming dogs to worry about.

I personally do not care what a homeowner does within their own home as long as it does not encroach on their neighbors negatively and I do fear that this type of business within our neighborhood could have negative affects on all us neighbors. By virtue of the fact that this public notice has been posted, a person or people with bad intentions now knows exactly where to go to get weed and cash (since my understanding is, banks are prohibited from accepting money from marijuana businesses). I do not want to have to maintain constant vigilance on my property because someone else is lurking to take advantage of the business across the street from me. The neighbor directly to the right of this proposed facility contains an elderly widow who is now concerned that every noise she will hear will be someone who is trying to break in next door, or might mistake her property for the one next door to her.

Another concern is, if one of us decide to sell our home, we may have a tougher time either selling our home, or selling it at a competitive price because we have a marijuana growing facility in our neighborhood.

This is not the appropriate place for a business such as this, not smack in the middle of a residential neighborhood. I implore you to please deny this application for a marijuana growing facility at this location.

Sincerely,

Kelly Malidore
