Categories: Green Category

Good Morning,

Please accept my attached documents. These are the items I was requested to provide per the attached October 3, 2017 AMCO review letter by Mr. Mark Bailey.

I created cover sheets for each of the main (dark) bullet items.

I hope that it is clear and concise.

In response to the request for more information on the use of an incinerator I elected to change that method of disposal to simply taking the waste to the landfill. I called the borough landfill and it seems that this is an acceptable practice. Please see the revised plan and my approach to meeting your requirements.

I also submitted a revise floor plan showing, at least I hope it shows clearly, that the entire premises is the licensed premises. The only entrance to the building is also the restricted access point. Once inside there are no other restricted access doorways. I hope this is acceptable. I have placed the required signage and cameras on the exterior entrance. There are no windows as they were deleted for the remodel.

All requested information is attached.

Please feel free to request any additional information, clarifications, or submittal items and I will be sure to get them addressed immediately.

Thank you for reviewing my application.

Mike Allen
