Form MJ-05: Marijuana Product Manufacturing Facility

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	FECO Oil - Full Extract Cannabis Oil
Type:	Marijuana Concentrate

Product Description: Details must include the color, shape, and texture.	The FECO color will be range of translucent dark green to black, depending on the strain of marijuana used. The texture will be similar to the texture of honey.

Ingredients: This box is not applicable to marijuana concentrates	N/A
Standard Production Procedure and Detailed Manufacturing Process:	-The process for creating Ethanol/Alcohol Extract Concentrate type concentrate shall include the following steps: flower placed in a mason jar with 195-200 proof alcohol and is then locked in a fire proof cabinet for 6 hours. After the contents have soaked in the alcohol for 6 hours the contents are poured into a glass flask and attached to a close loop machine where the flask is rotated in warm water for an undetermined amount of time to evaporate the alcohol from the cannabis. After evaporation process the FECO will be separated out and packaged into syringes for a smokable product sold to retailers for direct consumption OR in larger quantities in mason 16oz jars to edible companies for mixture in food fats for edibles.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 5 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520 and 3 AAC 306.565 – 3 AAC 306.570, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	FECO Oil - Full Extract Cannabis Oil
Type:	Marijuana Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Attached photos, drawings, or graphic representations are preferred.	FECO will be put into a syringe with measurement markers on the syringe, and then placed in a mylar bag with one syringe per bag. It will be sold individually packaged to retail stores for direct sale to consumers in 0.5 gram units and 1.0 gram units or wholesale in 16oz jars to edible companies. Packaging for direct retail will have all required warnings and neither the internal nor the external packaging will display any kind of printed images that might entice individuals under twenty one (21) years of age. All packaging materials will be obtained from a reputable vendor, as selected by ownership, and inspected for quality prior to acceptance into the facility. Once packed, all materials will be again inspected by an agent of the facility to ensure that all containers and wrapping materials properly seal their contents and protect from contamination. Please see attached Exhibit C for graphic representation of packaging.

Sample Labels: Provide sample labels showing how the labeling information required in 3 AAC 306.570 will be set out.	Please see attached Exhibit D for sample labeling, logo and required information and display of warnings.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board approval of a new marijuana product or marijuana concentrate for production at its licensed premises, under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the Marijuana Control Board has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the licensed establishment.

Licensee:	R.C. Tinderbox, LLC	**License Number:**	10301		
License Type:	Marijuana Concentrate Manufacturing Facility				
Doing Business As:	R.C. Tinderbox, LLC				
Premises Address:	7801 King St.				
City:	Anchorage	**State:**	AK	**ZIP:**	99518

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Review 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the licensed establishment will meet the listed requirements.

Product Name:	Shatter
Type:	Concentrate - for Inhalation

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Product Description: Details must include the color, shape, and texture.	Color ranges from black to green to golden. Shape is amorphous. Texture can range from sticky to crystalline.

Ingredients: This box is not applicable to marijuana concentrates	N/A

Standard Production Procedure and Detailed Manufacturing Process:	The process of creating shatter is to pour cannabis oil onto silicone mats and put into a vacuum oven. The vacuum oven cooks the cannabis oil under low pressure to create shatter.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Packaging and Sample Label

Review 3 AAC 306.565 - 3 AAC 306.570, and identify how the licensed establishment will meet the listed requirements.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Attached photos, drawings, or graphic representations are preferred.	Shatter will be packaged in a small glass, plastic, or silicone container with a lid for retail sales. The container will be placed into a plastic or mylar, child-resistant, resealable bag with an optional clear window to show the product. Retail packages will contain up to one gram of shatter per package with a THC percentage between 50% and 99%. Shatter will be placed into glass jars with screw top lids for wholesale to other manufacturing facilities with a THC percentage between 50% and 99%.
Sample Label: Provide a sample label showing how the labeling information required in 3 AAC 306.570 will be set out.	
As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
