MEMORANDUM

TO:	Marijuana Control Board	DATE:	October 7, 2018
FROM:	Erika McConnell, Director	RE:	Lady Gray Gourmet Medibles #12254

Lady Gray Gourmet Medibles, a marijuana product manufacturing facility, is requesting approval of amendments to its operating plan that would make changes to its current approved products. Some of the requested changes are standard requests of product manufacturers, for which I have granted temporary approval. Other requests would change the licensee's approved products from individual products to umbrella categories of products. Attached is MJ-15 Operating Plan Change application - which is divided into temporarily-approved and not-temporarily-approved sections - and the current operating plan supplemental.

3 AAC 306.525(a) states that a marijuana product manufacturing facility, including a marijuana concentrate manufacturing facility, must obtain the board's approval for each product it will manufacture for sale or transfer to another licensed marijuana establishment. Approval of umbrella categories of products, rather than each individual product, is not contemplated in the existing regulations and would be extremely difficult to enforce.

I recommend that the board approve the requested changes for which the licensee has been granted temporary approval, and deny all other changes that would create umbrella categories of products.
