ALCOHOL & MARIJUANA CONTROL OFFICE

550 West Seventh Avenue, Suite 1600 Anchorage, AK 99501 Main: 907.269.0350

MEMORANDUM

TO: Marijuana Control Board

DATE: Friday, April 01, 2022

FROM: James Hoelscher, Enforcement Supervisor

RE: Enforcement Report, Marijuana

The Alaska Police Standards Council has accredited our course for "Alcohol & Marijuana Laws for Patrol Officers". We will be teaching our first class on April 4, 2022 to Village Public Safety Officers. Investigator Chiesa is currently working on the material for the on-line module for training, and I anticipate that this will be completed and approved prior to the fall. This is a huge step towards having the availability of education for all Alaska law enforcement on current Alcohol & Marijuana laws.

We remain fully staffed and Investigator Chiesa has settled into his post in the Mat-Su Valley. Investigator Chiesa has recently been accepted as a member of the Professional Development Committee by the National Liquor Law Enforcement Association. This panel has 10 members appointed throughout the Country, making this an exceptional achievement.

Investigator Moses has also been adjusting to his new position with AMCO in Fairbanks. There have been no major changes for the Anchorage or Juneau based Enforcement.

AMCO Enforcement has continued to provide enforcement to both Alcohol & Marijuana industries. Sometimes this causes one industry to appear to get more "attention" than the other. Investigative assignments are however solely by scope and need.

Enforcement has continued to have staff meetings on varying topics with the goal of improvement and streamlining.

Lastly, regarding our activity that reflects our principles, we have created separate and combined graphs for each board in hopes that they are easier to understand and interpret. If there is not number associated with a specific principle, it is because we have not received a report regarding that principle. I anticipate that the more we are able to educate and build a solid line of communication with other law enforcement, these reported number will increase.

Backup power for surveillance — I previously recommended that a licensee has some type of uninterruptible power supply (UPS) requirement to insure video recording continues for a certain amount of time should the power be lost at a licensed facility. The importance of this has been affirmed to me when we had a few burglaries where the suspects cut the power to the buildings prior to overcoming the locks and illegally entering the premises. The only instance of enforcement having any substantial and

MCB Enforcement Report 4-1-22 Page 2

usable video of the suspects was at a facility that had UPS for their security equipment. I am asking the board to consider adding this requirement in regulation, it is a fairly inexpensive investment that benefits the licensee and their employees, law enforcement, board and AMCO.

Tax Violations - AMCO Enforcement Unit will soon begin to review licensee tax issue complaints on a case-by-case basis by looking at the totality of the situation and bringing various enforcement measures forward to encourage compliance before tax receipts become enormous and, in some cases, insurmountable by licensees.

Packaging of Marijuana and Marijuana Products/Concentrates -

- "Variety Packs" On 2-4-22, we issued an advisory concerning unapproved "variety packs". This
 was done after we received complaints of Cultivators, Product Manufacturers and Concentrate
 manufacturers creating and selling variety packs.
 - The licensee(s) were placing products and concentrates in one multi pack "package" within METRC.
 - o In some cases, the packages exceeded the allowable serving size (3 AAC 306.560(2) and the packages have not been approved by the MCB.
 - AMCO Enforcement was told that in some of these incidents, the packages were "exit bags" and not unapproved variety packs. We found that in these cases the following applied to the packaging:
 - sealed prior to a customer purchasing the items
 - has METRC tags already applied
 - Is labeled <u>"Variety Pack"</u>
 - each METRC Tag on the package is labeled Variety Pack
 - has the required warnings for a package already applied
 - nothing can be added to the bag or changed by the customer
 - it is only filled with the originating licensee's product

Licensees were advised to stop this practice. AMCO Enforcement has concluded that these small, but relevant details point more towards company packaging using an unapproved package, rather than an exit bag. I am asking for the board to review this and support Enforcement's decision.

• Trade show or event packaging — Enforcement was approached after the aforementioned advisory was distributed. It was asked if a licensee could sell backpacks filled with marijuana and marijuana products as a "judge kit". The judges would purchase certain/specific marijuana and marijuana products that were placed in a backpack labeled for the event. Enforcement advised the individual making the request that we would seek board guidance as we can see the slight difference between the unapproved packaging and the need for this to occur at an approved trade show.

I also advised both parties that this can be made a moot point if retailers sold the marijuana and marijuana products and utilized the bags/backpacks as exit bags. The caveat was that it had to be used as an exit bag and not used for any other purpose and the customer could choose what items they placed in the bags, if the marijuana retail store promoted certain items and said this purchase includes...

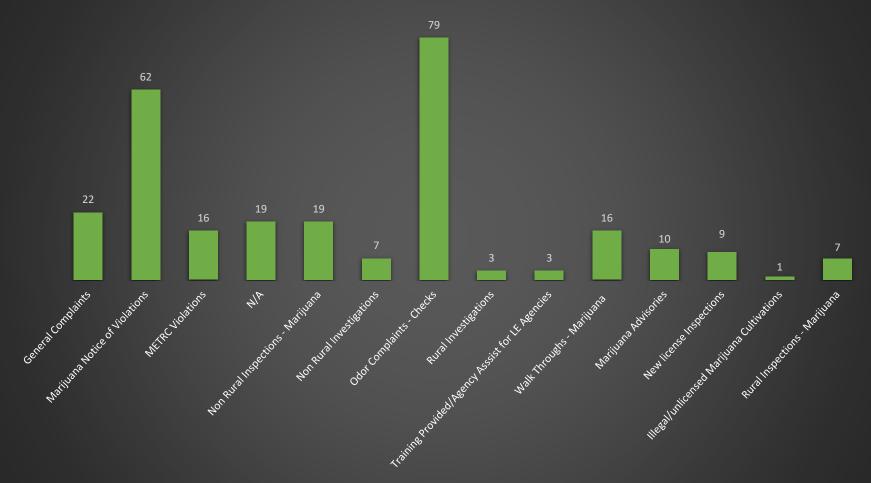

Packaging supply chain issue – AMCO Enforcement is requesting delegated approval of different types of packaging to be used by our licensees as we see the complications caused by supply chain issues. If a

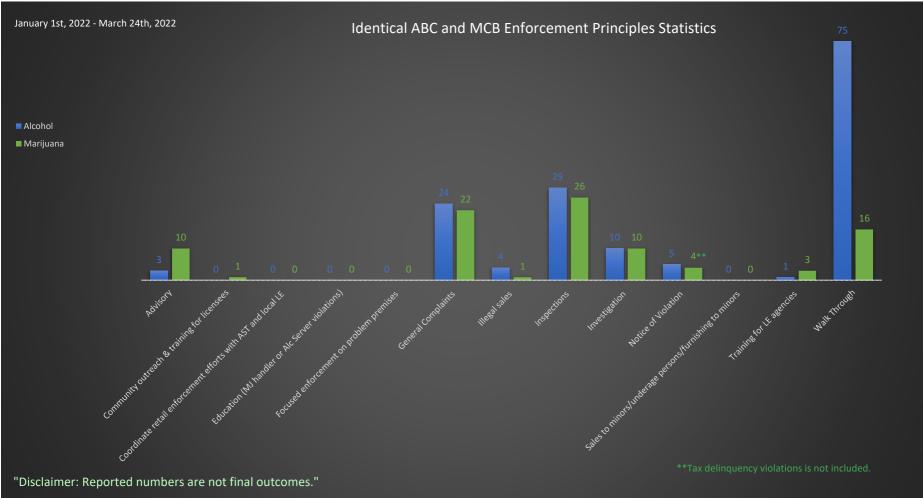

MCB Enforcement Report 4-1-22 Page 3

licensee was to provide an adequate compliant replacement, we do not see the need to complicate a process for the board, licensee and AMCO.

Signage -_A survey of various sign laws and procedures by the regulations desk, Program Coordinator and enforcement continues.

MCB Enforcement Principles

** CORRECTED **
