I am objecting to the marijuana license for Denali Dispensaries. John Emmi who owns the property is currently in litigation with the Mat-Su Borough for using the site as a landfill, illegal use as a gravel pit and other issues. John Emmi has not shown any regard for the neighborhood or following any rules or regulations.

We are currently the neighbors adjoining this property. We live in a residential neighborhood, numerous subdivisions. This is not the location for this type of business.

I ask that his application be denied.
