Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- [x] **Form MJ-01:** Marijuana Establishment Operating Plan
- [ ] **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- [ ] **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- [x] **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- [ ] **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Kreative Konfections LLC	**MJ License #:**		17389	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Kreative Konfections LLC				
Premises Address:	2301 S. Knik-Goose Bay Rd., #5				
City:	Wasilla	**State:**	Alaska	**ZIP:**	99654

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

MJ-01 -
p.5 - Slight wording change to clarify camera capability and placement. Clarification of video storage security. All meet or exceed regulatory requirements.
p.8 - Changing metal transport box to plastic transport box. The metal box is proving to be too heavy for practical use.

MJ-05 -
Budder, Crumble, Live Resin, Kief, Sugar, and Shatter -
Added a color to packaging options: black or white backed mylar bags (was only white), and larger package options.

Shatter only - added option to package in parchment folds inside the mylar bags.
Sugar only - Changed name to Terp Sugar.

Divine Konfections, Heavenly Konfections, and Kreative Karamels -
Added alternative ingredients, both added and deleted some flavor options, added black or white backed mylar bags (was only white), and a variety of package sizes.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. JRK

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. JRK

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility. [illegible]

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image. [illegible]

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application. [illegible]

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board). [illegible]

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

High-resolution cameras with automatic low-light capabilities are placed with a clear view of all exterior doors of the premises. The angles of the cameras capture images to a distance of at least 20 feet outside of the premises.
Similar cameras with automatic low-light capabilities are placed in upper corners inside the facility and cover all walking areas except for the restroom.
All cameras record continuously, 24 hours a day, 7 days a week.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

The video equipment and original copies of the video records are stored within a locked cabinet, which is inside a closet with electronic locks, inside the locked storage room on the premises. Only the licensees have the codes to the closet. The entire premises is a secure area.

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present. JLK

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded. JLK

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace. JLK

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d). JLK

Answer "Yes" or "No" to each of the following questions:

	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	✓	
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	✓	

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

Finished products will be weighed if necessary on a scale compliant with 3 AAC 306.745. Products will be packed in tamper-evident sealed containers or bags. All packaged products will be kept in a locked container/appliance/safe in the locked storage room while awaiting sale and transport. Packages products will be placed in a locked opaque plastic box in the rear of the transport vehicles. They will not be accessible from outside of the vehicle without the proper keys to the vehicle and codes to the locked box.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Fireweed Extracts Budder		
Product Type:	Concentrate		
Perishable: Yes/No	No - If refrigerated.	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Budder is a portion cut from a batch to get the specific weight desired. Exact shape and thickness varies. Color ranges from a light gold to a dark amber. Generally opaque. Texture is soft and gooey. When frozen, it becomes hard and brittle and can easily shatter into small pieces.
Ingredients: This box is not applicable to marijuana concentrates.	
Standard Production Procedure and Detailed Manufacturing Process:	A closed-loop system is used to extract the essential oils from the plant using a solvent or mix of solvents. The solvents are recovered from the extracted oils back into a holding tank until there is a thin liquid in the bottom vessel. This liquid is transfered to a shallow pan and placed in a vacuum oven to purge the remaining solvents. The purging and finishing process can take from 3 to 10 days and is done with low heat. After testing, the product is weighed into 1/2 gram to 7 gram portions and packaged for sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

AMCO

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Fireweed Extracts Budder
Product Type:	Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packages will be small clear glass containers with printed white or plain clear lids inside white or black and clear mylar heat-sealed child-proof bags. Jar sizes will range from 6 ml to 3oz. Bags will be approximately 3.5"x 5" to 5"x7". Budder will come in 1/2 gram, 1 gram, 3.5 gram, or 7 gram amounts. The total amount of THC will vary with the original product used to create the concentrate, and will range from 40% to 99%.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

KK Fireweed Extracts Budder

1 gram (0.035 oz)

Strain: Sour Diesel
Batch#12345678901234567890123
Grower: ABC Cultivators LLC Lic# 987654
Processor: Kreative Konfections LLC Lic# 17389
Tested by: Local Laboratory Inc Lic #987653
THC/A: 73.21% CBD/A: 0.42% Terpenes: 8.77%
Approximate Total Active Compounds: 820 mg
Residual Solvents: 17 PPM
Retailer: Local Retail Store Lic# 987652

Please keep refrigerated.

Alaska Safety Warnings: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Fireweed Extracts Crumble		
Product Type:	Concentrate		
Perishable: Yes/No	No - If refrigerated.	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Crumble is granular in texture and ranges from light gold to dark amber in color. It has no shape, instead it resembles a pile of gooey cake crumbs.
Ingredients: This box is not applicable to marijuana concentrates.	
Standard Production Procedure and Detailed Manufacturing Process:	A closed-loop system is used to extract the essential oils from the plant using a solvent or mix of solvents. The solvents are recovered from the extracted oils back into a holding tank until there is a thin liquid in the bottom vessel. This liquid is transfered to a shallow pan and placed in a vacuum oven to purge the remaining solvents. The purging and finishing process can take from 3 to 10 days and is done with low heat. As it solidifies, the product is turned over on itself until it eventually resembles cake crumbs. After testing, the product is weighed into 1/2 gram to 7 gram portions and packaged for sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Fireweed Extracts Shatter		
Product Type:	Concentrate		
Perishable: Yes/No	No - If refrigerated.	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Shatter is a flat portion cut from a large sheet to get the specific weight desired. Exact shape and thickness varies. Color ranges from a light gold to a dark amber. Generally transparent. Texture is firm but malleable, and can be slightly sticky depending on the quantity of terpenes present. When frozen, it becomes hard and brittle and can easily shatter into small pieces. Can soften and even become liquid as temperatures exceed 80F.
Ingredients: This box is not applicable to marijuana concentrates.	
Standard Production Procedure and Detailed Manufacturing Process:	A closed-loop system is used to extract the essential oils from the plant using a solvent or mix of solvents. The solvents are recovered from the extracted oils back into a holding tank until there is a thin liquid in the bottom vessel. This liquid is transfered to a shallow pan and placed in a vacuum oven to purge the remaining solvents. The purging and finishing process can take from 3 to 10 days and is done with low heat. Eventually, a sheet of solid material is produced. After testing, the sheet is broken into 1/2 gram to 7 gram portions and packaged for sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Divine Konfections		
Product Type:	Edibles		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Divine Konfections are in a small pillow-shaped form in attached blocks of 10 with deep scores between each break-off piece. They have a firm, slightly rough texture. The letters "KK" and "THC" alternate on the break-off pieces. Divines come in a variety of colors to go along with their flavors (i.e. Banana = yellow). One break-off piece is one portion and contains up to 5 mg of THC each.
Ingredients: This box is not applicable to marijuana concentrates.	Glucose and/or corn syrup, sugar, thc/cbd concentrate in an alcohol tincture, flavor's essential oil and/or natural or artificial flavoring, natural or artificial food coloring, lecithin, citric acid, citrus zest. Flavors are both pure and combinations of the following: apple, apricot, banana, blackberry, blueberry, butterscotch, caramel, cherry, chocolate, cinnamon, clove, coconut, coffee, cream, grape, ginger, grapefruit, guava, hot cinnamon, lemon, lime, lychee, mango, mint, mixed berries, menthol, orange, peach, pear, peppermint, pineapple, pumpkin, raspberry, root beer, spearmint, mixed spices, strawberry, strawberry lemonade, rhubarb, tangerine, watermelon, wintergreen, and vanilla.
Standard Production Procedure and Detailed Manufacturing Process:	Add glucose syrup, sugar, and water into a pot over medium-high heat. Bring syrup to boil. Stir while syrup boils. As soon as syrup reaches the hard crack stage, remove from heat. Add thc/cbd concentrate, flavorings, any powders or zests, and food coloring. Whisk until all ingredients are incorporated. Pour into molds and cool. Place blocks into packages. Send to lab for testing before sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Wording indented on the top will alternate "KK" and "THC". Shown below are a block as packaged as well as broken-off individual pieces. 
Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Divine Konfections
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Mylar packages have a black or white back and a clear front and are heat-sealed child-proof bags. Bags are approximately 3"x 5" to 4"x6". Divine Konfections are packaged in one scored block of 10 pieces, 3, 4, or 5 mg THC per piece, for a total of 30, 40 or 50 mg THC. One piece = one serving. Alternative packaging is 2 scored 3, 4, or 5 mg THC pieces in a single bag, for a total of 6, 8, or 10 mg THC.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
