RE: Marijuana Handler Education
Course Provider List

The list below is informational, only, for the board at this time. The list is of marijuana handler education course providers currently providing the course. Six of these course providers have not submitted renewal of and/or updated course material under 3 AAC 306.701(d) and (f) (which requires board review of the course every three years + a fee) for the board to review.

We have contacted the six course providers asking them to submit a renewal of and/or updated material. If we do not receive a renewal of and/or updated course material by the deadline of the next regularly scheduled board meeting, we will bring a list back to the board for action under 3 AAC 306.701(d) *the board...may rescind approval of the course if the board finds that the education course contents are insufficient or inaccurate.*
