

MCB OPENED REGULATION PROJECTS - STATUS

NAME OF PROJECT	STATUS
Enforcement Action Process	Rekeyed. On March 2023 agenda.
Public Notice of License Applications	With Law. Will provide update at meeting.
Dairy Butter, Oils, Fats – as stand-alone product	With Law. Will provide update at meeting.
Video Surveillance – power backup	Second round of public comment closed. On March 2023 agenda.
Exterior Window Pick-Up	Second round of public comment closed. On March 2023 agenda.
Business (name) Signs	Draft on March 2023 agenda.
Infants on Licensed Premises – updating Breastfeeding provision	Draft on March 2023 agenda.
Revocation of acceptance. Transportation (unnecessary stops)	Draft on March 2023 agenda.
Security Interest Transfer – like in alcohol	In the queue.
(state?) taxes owed – renewals	This project is complicated. At the January 2022 meeting, the board wanted the draft to be re-worked. I need to look at it with director. At some point there was the question of what the term “the board will” really means. In the queue.
Packaging – multipack (Momo’s bakery example)	Needs to be re-looked at on whether it really needs regulations change or can it just be guidance.
Explore the ability for AMCO/State to sell seized marijuana to recoup costs.	With law for research.
Handler Permit Course Training – 306.701	In the queue. Need to relisten to the conversation. Look in minutes for date of convo.

Three projects became effective since last meeting:

- Transfer of a license to another location – the application is on our website and it is the same application used for a regular transfer of license.
- Trade shows: a cultivator may bring up to one ounce of each strain of marijuana to the trade show.

## MCB OPENED REGULATION PROJECTS - STATUS

- Renewal application requirements: we will no longer be requiring entity documents at renewal, and will only request proof of possession of the licensed premises if needed.
