

MCB OPENED REGULATION PROJECTS - STATUS

NAME OF PROJECT	STATUS
Enforcement Action Process	Rekeyed. On March 2023 agenda. On agenda for June for reconsideration and adoption.
Video Surveillance – power backup	Second round of public comment closed February 2023. On agenda for June.
Exterior Window Pick-Up	Second round of public comment closed February 2023. On agenda for June.
Revocation of acceptance. Transportation (unnecessary stops)	On agenda for June for board discussion.
Business (name) Signs	Waiting for approval from Law to send out for public comment.
Infants on Licensed Premises – updating Breastfeeding provision	Waiting for approval from Law to send out for public comment.
Security Interest Transfer – like in alcohol	In the queue.
(state?) taxes owed – renewals	This project is complicated. At the January 2022 meeting, the board wanted the draft to be re-worked. I need to look at it with director. At some point there was the question of what the term “the board will” really means.
Packaging – multipack (Momo’s bakery example)	In the queue. Needs to be re-looked at on whether it really needs regulations change or can it just be guidance.
Explore the ability for AMCO/State to sell seized marijuana to recoup costs.	With law for research.
Handler Permit Course Training – 306.701	In the queue. Need to relisten to the conversation. Look in minutes for date of convo. At the March 2023 meeting, Eliza would like to be part of auditing of these courses to update regulations if necessary.

Two projects became effective since the March 2023:

- Dairy Butters, oil, fats-as stand-alone edible products to be sold to consumer.
- Public Notice for License Applications.
