Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Denali Fire Canna Strips		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1-year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Canna strips are small, semi-translucent smooth film like substance. The product is clear to yellow in color and are approximately 0.5"x1" in size, and consumed sub-lingually.
Ingredients:	Denali Fire Cannabis Oil, pullulan, carrageenan, xantham gum, locust bean gum, sorbitol, purified water, mint oil, herb extract (flavoring), custom terpene blend, aspartame, citric acid and alcohol based flavorings (see attached list of flavoring, as appropriate).
Standard Production Procedure and Detailed Manufacturing Process:	Oral Strips are produced by combining pullulan, carrageenan, xanthan gum, locust bean gum, sorbitol, aspartame and citic acid in a large mixing bowl and mixed well. While stirring, slowly pour water into the bowl and continue mixing until a gel is created. Add mint oil, herb extract and cannabis oil; combine ingredients until the slurry is homogenous. Cover loosely and store overnight to set. Pour slury onto a baking pan and spread to the desired thickness. Dry in oven until mixture is 3-8% moisture, let cool and cut into small strips. The product is stored at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Denali Fire Canna Strips
Product Type:	Other Marijuana Product / Edible

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging consists of non-toxic, opaque, black or white mylar/blister pack with an optional clear front/back to show the product. Bags/Packs range from 3"x4" to 4"x5" (not to be repackaged). The product will packaged in opaque, black/white plastic flip top containers. Each strip will contain a 2mg micro-dose of THC, with a total of 50mg per container. 1 strip is 1 serving of 2mg THC/each, with 25 strips per pack. *To be placed into exit packaging in compliance with 3 AAC 306.345(a)(3) by the retailer*

EXAMPLE ONLY - FINAL PACKAGING DESIGN WILL VARY

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
