In an attempt to be as detailed as possible when we originally filled out our license application, we listed every flavor separately to try and eliminate as many questions as possible. However, upon approval the they were approved as 5 products (candy, marshmallows, sodas, fudge, cookie dough) with varying flavors. In an attempt to streamline our requested changes, I have done the same here and grouped the products in the same manner that it was originally approved.

We originally requested only certain package sizes, we are now asking to be able to package all products in all package sizes, from a single 5mg package to a full 10 serving package of 50mg.

Fire Eater Marshmallows: we would like to test multi-flavor batches for sale as a variety pack as well as the induvial flavors. We'd like to package in all serving sizes (1 (5mg) -10 (50mg)serving) packages, add an additional optional production process of freeze drying, packaging update, and additional flavors: raspberry, pumpkin spice, chocolate espresso.

High Dive Sodas: swap in house made juices for commercially produced juices, flavors, etc., (this will provide a much more consistant end product) We'd like to package in all serving sizes (1 (5mg) -10 (50mg)serving) packages, additional flavors: cola, cherry cola, grape, energy drink

Acrobat Candies: request to test multi-flavor batch for sale as a variety pack as well as individual flavors, We'd like to package in all serving sizes (1 (5mg) -10 (50mg) serving) packages, request additional optional process of freeze drying, request additional package option, remove sour green apple
