Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Garden Pop will be a frozen dessert that is the consistency of a popsicle. They will be rectangular and will range in color from light amber to pink, deep red to purple or brown. They will be approximately 2 inches by 11 inches and packaged in a CR plastic zip/sealed bags that will also be heat sealed.
Ingredients:	CO2 concentrate (Green Acres Oil), fruit juice/fruit juice concentrate, fruit nectar, fruit puree (Tropical Flavor consisting of Apple, Pineapple, Lemon and Cherry (either juice or puree)), sugar (with or without) sunflower lecithin, MCT oil (medium-chain triglyceride), glycerin, citric acid, food coloring
Standard Production Procedure and Detailed Manufacturing Process:	In large, heavy bottom sauce pan heat juice and sugar to boiling. Mix in any fruit nectar, fruit puree and other ingredients. Let cool completely in refrigerator either in shallow pans or pots with ice wands, following time/temperature cooling procedures. After reducing the temperature to 41 degrees F or below in 4 hours or less, pour into CR plastic zip/sealed bags that will be heat sealed after they are frozen. (This will be documented on time/temperature cooling logs.)
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Garden Pop will be packaged in Child-Resistant (CR) plastic zip/sealed bags that will also be heat sealed. The label will have demarcations indicating each 5mg of THC serving, 5 servings per tube, totaling 25mg of THC per package. 5 - 5mg servings, total of 25mg of THC in the plastic zip/sealed and heat sealed bag. When purchased, will be placed into a paper bag when leaving retail.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Garden Pop: Please see below for sample label. Note: Total amount of THC will be indicated on label based upon total servings per package. Example below reflects label for a total per package of 25mg of THC. Label will be placed on the Child-Resistant (CR) mylar bag.

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
