Re: Marijuana Product Manufacturing Facility License #21552

Dear applicant,

The AMCO Office has reviewed the documents submitted for the proposed marijuana establishment license referenced above. This letter is notice under 3 AAC 306.025(e)(2) that your application is incomplete and additional items are needed to complete the application. The additional items that need correction or resubmittal are listed below—please be sure to read the entire letter. **Please note that if the corrections and/or additional documents submitted in response to this letter are not found to be complete, your application will be returned to you in accordance with 3 AAC 306.025(e)(1), and you will need to file a new application and pay a new fee should you wish to continue pursuing licensure.**

- **Online Application**
  - The zip code listed on this application, 99507, is inconsistent with the lease documents provided that identify the zip code as 99503. I have rolled your application back to New status so that you can correct the zip code in MyAlaska. Once you re-submit the application, a new Advertisement Notice and Public Notice will be generated. Be sure to save copies of these Notices for your records and corrections.
- **MJ-00 Application Certifications**
  - Page 1, Section 1 – Establishment Information for everyone:
    - Please correct the zip code.
- **MJ-01 Operating Plan**
  - Page 1, Section 1 – Establishment & Contact Information:
    - Please correct the zip code of the premises address.
  - Page 2, Section 3.1:
    - Your response describes processes for admitting visitors in the facility, but does not address how unescorted members of the public will be prevented from accessing restricted access areas on this proposed premises.
  - Page 10, Section 9.2:
    - Your response includes the phrase "Including, but not limited to". Please remove this phrase and be specific regarding the proposed advertising.
- **MJ-02 Premises Diagram**
  - Page 1, Section 1 – Establishment Information:
    - Please correct the zip code.

- Diagram 1 + 2:
    - Include the room dimensions on your diagram.
- Diagram 3:
    - In color, outline or shade (and label) which building your proposed premises is within.
- Diagram 4 + 5:
    - The diagram provided does not include the information required on Diagram 5. Please remove the Diagram 5 label and submit a separate Diagram 5.

- **MJ-05 Manufacturing Supplemental**
    - Page 1, Section 1 – Establishment Information:
        - Please correct the zip code.
- **MJ-05 – Marijuana Products**
    - All Concentrates (excluding Pull N' Snap, Shatter, and Terp Darts):
        - In the Packaging Description of many of the proposed concentrates, you state that the product will be stored in "a small container". Please specify the materials that will be used for these containers.
    - CO2 Cartridge:
        - In the Standard Production Procedure, specify whether or not winterization will be part of the production process.
    - Crystalline and Diamonds:
        - Except for the image used in the Depiction section, these products appear to be identical. How are they different?
    - Dry Sift and Kief:
        - These products appear to be identical. How are they different?
    - Live Rosin:
        - The Standard Production Procedure is the same procedure used in making Kief. Are there any additional steps in the manufacturing process?
    - All Edible Products:
        - The Product Descriptions of some products state that they will come in various geometric shapes. Specify the proposed shapes for each product.
        - If a product will be offered in multiple flavors, include a list of al proposed flavors (and colors) in the Product Description and/or Ingredients section.
        - If the base marijuana ingredient in a product is different (canna oil, distillate, canna butter, etc.), the different varieties should be submitted as separate products. The products should also differentiate between different varieties in some way (in addition to the ingredients label), such as variations on the name or packaging options.
        - In the Packaging Description, be specific regarding the packaging options and THC per serving varieties being proposed. For example, a product might contain two-and-a-half milligrams of THC per serving and be packaged in bathes of ten or twenty pieces totaling twenty-five or fifty milligrams of THC per package, respectively.
    - Enlighten Caps:
        - In the Product Description or Ingredients section, define what MCT oil is. It can be shortened to "MCT oil" in other sections.
        - The Product Description, Ingredients, and Standard Production procedure are inconsistent regarding the inclusion of MCT oil, olive oil, or vegetable glycerin. Each section includes different ingredients. Please include all proposed ingredients in the Ingredients section and revise your responses so they are consistent.
    - Enlighten Mist:
        - This product includes MCT oil as an ingredient. When is it added during the production procedure?

- Bliss, Cold Brew, Delight, and Nectar:
    - In the Packaging Description, specify what size bottles will be used in addition to the total number of servings and THC per serving.
    - The sample images provided do not show the serving size demarcations that are mentioned in the description.
- All In-House Ingredients/Wholesale products for other manufacturers (except HTFSE):
    - If the base marijuana ingredient is different, each variety should be submitted as a different product.
- Canna-liquid:
    - Include a list of all proposed emulsifiers in the Ingredients section.
- Caviar Joints:
    - The sample image in the Depiction is very blurry. Please provide a better image.
- Caviar Buds – no revisions necessary.
- Distillate Cartridge and Distillate Darts:
    - The Standard Production Procedure states that flavoring or HTFSE may be added as needed. Be specific regarding whether or not it will be included. If so, include a list of all proposed flavors. Note that if additional ingredients are added, these products should be re-categorized as Marijuana Products and not Concentrates.

- **MJ-07 Public Notice Posting Affidavit**
    - Section 1 – Establishment Information:
        - The zip code listed in this section is inconsistent with the zip code in your lease documents.
- **MJ-08 Local Government Notice Affidavit**
    - Section 1 – Establishment Information:
        - The zip code listed in this section is inconsistent with the zip code in your lease documents.
    - Section 2 – Certifications:
        - Notice to your local government must be provided within ninety days of submitting all application documents and fees. Because more than ninety days passed, it will be necessary to provide your local government and community council with a copy of your corrected Public Notice. Afterwards, complete a new MJ-08.
- **Publisher's Affidavit**
    - Once you have corrected the zip code on the Online Application, it will be necessary to run a corrected advertisement with the correct zip code one time and provide a new affidavit from the publisher. Also include a copy of the corrected ad.
- **MJ-09 Statement of Financial Interest**
    - Page 1, Section 1 – Establishment information for everyone:
        - Please correct the zip code.

It is very important that you submit the above corrections and/or documents in a timely manner so that AMCO staff has adequate time to review the corrections and/or additional documents which must be found to be complete within 90 days of the date of this letter.

Respectfully,

TJ Zielinski, Occupational Licensing Examiner
For,
Erika McConnell, Director

Good morning,

I have reviewed your application for a marijuana establishment, but at this time your application is considered incomplete. See the attached notice regarding corrections, additional documents, and/or resubmittals that need to be addressed in your application.

Please make sure to read the entire notice. If the submitted corrections for your application are inadequate to deem your application complete, or your application is still incomplete after ninety (90) days from the date of this notice, your application will be returned to you in accordance with 3 AAC 306.025(e)(1) and 3 AAC 306.025(f). Should you wish to continue pursuing licensure, it would be necessary to file a new application and pay new fees.

Ninety-day Due Date: 1/20/2019

Let us know if you require copies of any submitted documents, and feel free to call or email if you need clarification on any items in the Incomplete Notice. Correspondence should be sent to marijuana.licensing@alaska.gov.

Sincerely,

TJ Zielinski

Good morning,

I have completed my review of the revisions submitted for this application, and also re-reviewed the proposed marijuana products against some clarifications from the Marijuana Control Board at the November meeting. Most of the necessary revisions were made, but on Diagram 3 & 5, can you separately label the premises for #21551 and #21552?

For the products, there are some revisions needed and I also have questions on some of them. I listed them separately for each product:

1. Bear Bites
    a. In Ingredients, include a list of all proposed flavors and flavor syrups.
    b. In the Standard Production Procedure, this product is referred to as another name (Fudge).
    c. In the Packaging Description, please specifically state the amount of THC that will be contained in each serving. You state that products will contain "up to five milligrams of THC per serving", but please state the specific amount, i.e. an option for 2.5 milligrams of THC per serving, or an option for 5 milligrams of THC per serving.
2. Bliss
    a. In Ingredients, include a list of all proposed flavors and flavor syrups.
    b. In the Packaging Description, please clearly state how much of the product equals one serving. Also specify the THC per serving, and if multiple options will be available.
3. Brownie Bites
    a. In Ingredients, include a list of all proposed flavors and flavor syrups.
    b. In the Packaging Description, please specify the THC per serving.
4. Budder
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. The Production Procedure described is identical to the procedure for crumble, shatter, and other proposed marijuana concentrates. Are any additional steps taken when making this product that make it different?
5. Canna-liquid
    a. Under Ingredients, include a list of the different marijuana concentrates that may be used.
6. Chocolate
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify what constitutes one serving of the product, and how much THC will be in each serving.
7. Chocolate Chip Cookies
    a. In the Packaging Description, specify how much THC will be in one serving. Please also define what one serving of this product is. Note that the Packaging Description also refers to this product as "Bear Bites".
8. Cold Brew
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, the serving size of this product is unclear. Is one serving five milligrams of Bliss? Please clearly state the serving size, as well as the THC per serving.
9. Crumble
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from

similar concentrates?

10. Crystalline
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any additional steps taken during the production process that differentiates this product from Diamonds?
11. Delight
    a. In Ingredients, include a list of all proposed flavors and flavor syrups. Also include Almond Milk as a possible ingredient, per the Standard Production Procedure.
    b. In the Packaging Description, please clearly state how much of the product equals one serving. Also specify the THC per serving, and if multiple options will be available.
12. Diamonds
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any additional steps taken during the production process that differentiates this product from Crystalline?
13. Distillate Cartridge and Distillate Darts
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Please specify the source of the terpenes mentioned in the Standard Production Procedure.
    c. Will these products be made using the proposed product Distillate Oil? The Standard Production Procedures describe re-making the product each time, but these products look like they may be mixes.
14. Distillate Oil
    a. In the Standard Production Procedure, please specify the solvents that will be used.
15. Dry Sift
    a. The Standard Production Procedure is nearly identical to what is described for Kief. How are these products different?
16. Enlighten Caps
    a. Vegetable glycerin is mentioned in the Standard Production Procedure, but is not a listed ingredient.
    b. The Packaging Description states that each capsule will contain one to five milligrams of THC. What are the different packaging options that will be offered?
17. Enlighten Drops
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
18. Enlighten Gummies
    a. In Ingredients, include a list of all proposed flavors. The Product Description mentions blueberry and strawberry, but these flavors are not listed.
    b. In the Packaging Description, please specify the different options for THC per serving.
19. Enlighten Mist
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
20. Enlighten Nano Caps
    a. In the Packaging Description, please specify the different options for THC per serving.
21. Enlighten Nano Drops
    a. In the Production Description, please remove the words “with differing THC and CBD ratios”.
    b. In Ingredients, include a list of all proposed flavors.
    c. In the Packaging Description, please specify the different options for THC per serving.
22. Enlighten Nano Mist
    a. In the Packaging Description, please specify the different options for THC per serving.
23. Grizzly Chews
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
24. Honeycomb
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from similar concentrates?
25. HTFSE
    a. In the Standard Production Procedure, please specify the solvents that will be used.
26. Jane's Ginjaz

    a. In the Packaging Description, please specify the different options for THC per serving.
27. Kief
    a. The Standard Production Procedure is nearly identical to what is described for Dry Sift. How are these products different?
28. Live Resin
    a. In the Standard Production Procedure, please specify the solvents that will be used.
29. Nectar
    a. In Ingredients, include a list of all proposed flavors and flavor syrups.
    b. In the Packaging Description, please clearly state how much of the product equals one serving. Also specify the THC per serving, and if multiple options will be available.
30. Peanut Butter Pops
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
31. Pull N' Snap
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from similar concentrates?
32. Sauce
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from similar concentrates?
33. Sauce Cartridge and Sauce Dart
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Please specify the source of the terpenes mentioned in the Standard Production Procedure.
    c. Will these products be made using the proposed product Distillate Oil? The Standard Production Procedures describe re-making the product each time, but these products look like they may be mixes.
34. Shatter
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from similar concentrates?
35. Sugar Stones
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
36. Sugar Wax
    a. In the Standard Production Procedure, please specify the solvents that will be used.
    b. Are any steps taken in the production of this product that makes it different from similar concentrates?
37. Symple Shooga
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.
38. Symple Syrup
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please clarify the serving sizes. You state that the product will be bottled in sizes up to 5mg, but this is inconsistent with the information on your sample label.
39. Terp Darts
    a. In the Standard Production Procedure, please specify the solvents that will be used.
40. Tonic
    a. In Ingredients, include a list of all proposed flavors.
    b. In the Packaging Description, please specify the different options for THC per serving.

Good Morning TJ,

We made all of your requested revisions with exception to the particular items we brought to the board. If it's easier for you to review all submitted incomplete items and the items brought to the board and let us know what else is needed, that works for us.

Thank you for everything!

Did you want me to just review those (with the other corrections) and follow up if anything is needed? At a glance, they still have multiple marijuana sources listed, so perhaps some of the other requested revisions were made. I'm about to get to this application.

Good afternoon,

I finished reviewing the attached revisions, and Form MJ-02 now appears to be complete. Most of the products look ready to move forward, but there are some that will need some additional revisions:

1. Bear Bites – a list of proposed flavors for this product wasn't attached
2. Bliss – the ingredients include "**canna-liquid** ((water, cannabis concentrate (shall be either, canna butter, canna coconut oil, **canna liquid**, shatter, distillate, crumble, budder…[))]
3. Soft Chews:
    a. The cannabis concentrates are not included in the Ingredients section
    b. Please specify the THC per serving options that will be available, as well as the different package sizes
4. Enlighten Drops – the THC per serving in the Packaging Description and the directions on the Sample Label provide contradictory information
5. Symple Syrup - for both the one ounce and two ounce bottles, what is the amount of THC per serving?
6. Distillate Oil – ethanol isn't listed on the first page in the Standard Production Procedure as a solvent, but the additional production procedures do include steps for when ethanol is used. Please add it to the first Standard Production Procedure with the others
7. Multiple Products – in the fifth warning statement (Marijuana should not be used by women who are pregnant or breast feeding) replaces the word that should read "be" instead reads "**bsnisnie**" for the following products:
    a. Crystalline
    b. Dry Sift
    c. Sauce Dart
    d. Terp Dart

Once these revisions are made, no further revisions should be necessary. Let me know if you have any questions or need copies of any documents.
