Hi – the capital contributions have not been finalized, meaning the members have TBD on their capital contributions – but their ownership percentages are reflected with the Alaska State Corporation Commission – attached is the initial report showing ownership percentage as split equally three ways (33.3%). The Exhibit with their capital contributions will not be incorporated into the operating agreement until the parties have determined their capital contributions, which are unknown at this time because the facility is being constructed and cash calls come to the members as the project progresses. Please let us know if you need anything else – thanks! Jana

Hello,

Corrections have been reviewed. The only thing is that I did not see Exhibit A for the LLC's operating agreement where, according to the operating agreement, it should list the percentages owned by each member.

Thank you
Jane
