Recreational Marijuana Regulations 3AAC 306

Health and safety requirements

Time Remaining: 0 seconds

A marijuana cultivation facility shall comply with all applicable health and safety requirements set out in 3 AAC 306.735 and the additional requirements set out in this section.

A marijuana cultivation facility shall ensure that any licensee, employee, or agent who is present at the marijuana cultivation facility and in contact with any marijuana wears clean clothing appropriate for the duties that person performs, wears protective apparel, such as head, face, hand, and arm coverings, as necessary to protect marijuana from contamination and practices good sanitation and health habits.

Alaska Marijuana Handler Permit Education

Recreational Marijuana Regulations 3AAC 306

Standards for cultivation and preparation

Time Remaining: 3 seconds

A marijuana cultivation facility shall use registered scales in compliance with AS 45.75.080 and 3 AAC 306.745 (see below).

AS 45.75.080. General Testing

The director may inspect and test, to ascertain if they are correct, all weights and measures kept, offered, or exposed for sale. The director shall, at least annually and more often as considered necessary, inspect and test, to ascertain if they are correct, all weights and measures commercially used in

- (1) determining the weight, measurement, or count of commodities or things sold, or offered or exposed for sale, on the basis of weight or of measure;
- (2) computing the basic charge or payment for services rendered on the basis of weight or of measure or count; or
- (3) determining weight or measurement when a charge is made for this determination.

However, in the case of single-service devices, that is, devices designed to be used commercially only once and to be then discarded, and in the case of devices uniformly mass-produced, as by means of a mold or die, and not susceptible of individual adjustment, the inspection and testing of each individual device is not required and the inspecting and testing requirements of this section are satisfied when inspections and tests are made on representative samples of the devices. The lots from which representative samples are inspected and tested are held correct or incorrect upon the basis of the results of the inspections and tests on the samples.

3 AAC 306.745. Standardized Scales

A marijuana establishment shall use registered scales in compliance with AS 45.75.080 (Weights and Measures Act). A marijuana establishment shall:

- (1) maintain registration and inspection reports of scales registered under AS 45.75.080 and 17 AAC 90.920 - 17 AAC 90.935; and
- (2) upon request by the board or the director, provide a copy of the registration and inspection reports of the registered scales to the board or the director for review.

Recreational Marijuana Regulations 3AAC 306

Production of marijuana concentrate prohibited

Time Remaining: 0 seconds

A marijuana cultivation facility may not produce or possess marijuana concentrate that was extracted using any process described in 3 AAC 306.455 on the marijuana cultivation facility's licensed premises unless the marijuana cultivation facility also has a marijuana product manufacturing facility license.

Any extraction or production of marijuana concentrate on the premises of a licensed marijuana cultivation family must:

- be in a separate room that is physically separated by a secure door from any cultivation area and has a sign that clearly identifies the room as a marijuana concentrate production area, and warns unauthorized persons to stay out; and
- comply with all applicable provisions of 3 AAC 306.500 - 3 AAC 306.570.

Recreational Marijuana Regulations 3AAC 306

Required laboratory testing

Time Remaining: 3 seconds

A marijuana cultivation facility shall provide a sample of each harvest batch of marijuana produced at the facility to a marijuana testing facility and may not sell or transport any marijuana until all laboratory testing required under 3 AAC 306.645 has been completed.

To comply with the above, a marijuana cultivation facility shall:

- collect a random, homogenous sample for testing by segregating harvested marijuana into batches of individual strains of bud and flower, then selecting a random sample from each batch in an amount required by the marijuana testing facility;
- designate an individual responsible for collecting each sample; that individual shall prepare a signed statement showing that each sample has been randomly selected for testing, provide the signed statement to the marijuana testing facility; and maintain a copy as a business record under 3 AAC 306.755
- transport the sample to the marijuana testing facility's licensed premises in compliance with 3 AAC 306.750.

A marijuana cultivation facility shall segregate the entire batch from which the testing sample was selected until the marijuana testing facility reports the results from its tests. During this period of segregation, the marijuana cultivation facility that provided the sample shall maintain the batch in a secure, cool, and dry location to prevent the marijuana from becoming contaminated or losing its efficacy.

The marijuana cultivation facility that provided the sample may not sell or transport any marijuana from the segregated batch until the marijuana testing facility has completed its testing and provided those results, in writing, to the marijuana cultivation facility that provided the sample. The marijuana cultivation facility shall maintain the testing results as part of its business books and records.

Samples

Time Remaining: 2 seconds

A marijuana cultivation facility may provide a free sample of marijuana to a retail marijuana store if packaged in a sample jar containing not more than three and one-half grams of marijuana and protected by a plastic or metal mesh screen to allow customers to smell the product before purchase.

A marijuana cultivation facility may provide a free sample of marijuana to a retail marijuana store or marijuana product manufacturing facility as follows:

- a sample provided for the purpose of negotiating a sale may be not more than one ounce;
- a marijuana cultivation facility may not provide any one licensed retail marijuana store or marijuana product manufacturing facility with more than one ounce of marijuana per month free-of-charge for the purpose of negotiating a sale.

A retail marijuana store that receives a marijuana sample may not sell the marijuana sample to a customer, and shall either:

- return the marijuana sample to the marijuana cultivation facility that provided the sample; or
- destroy the marijuana sample after use and document the destruction in the retail marijuana store's marijuana inventory control system.

Random sampling

Time Remaining: 4 seconds

The board will or the director shall from time to time require a standard or limited marijuana cultivation facility to provide samples of the growing medium, soil amendments, fertilizers, crop production aids, pesticides, or water for random compliance checks.

The sample may be screened for pesticides and chemical residues, screened for unsafe levels of metals, and used for other laboratory tests the director finds to be in the interests of the public. The marijuana cultivation facility shall bear all costs of testing under this subsection.

When the board or the director orders random sampling under this section, the director shall identify a licensed marijuana testing facility to perform the testing. The marijuana testing facility shall collect the test samples.

The marijuana cultivation facility shall cooperate to facilitate the collection of samples.

Packaging of marijuana

Time Remaining: 2 seconds

A marijuana cultivation facility shall package its marijuana bud and flower for sale to a retail marijuana store, either:

- in a package not exceeding one ounce for resale to consumers without additional handling by the retail marijuana store except to add the retail marijuana store's own identifying name or logo, and license number; or
- in a wholesale package not exceeding five pounds for repackaging by the retail marijuana store; or
- to a marijuana product manufacturing facility in a wholesale package not exceeding five pounds; and consisting of a single strain or a mixture of strains as identified on the label.

When a marijuana cultivation facility packages marijuana for a retail marijuana store to sell to a consumer without repackaging, the packaging may not have any printed images, including cartoon characters, that specifically target persons under 21 years of age.

In addition, the packaging must protect the product from contamination and may not impart any toxic or damaging substance to the marijuana.

Each package prepared in compliance with this section must be identified by a tracking label generated for tracking by the marijuana cultivation facility's marijuana inventory tracking system.

A marijuana cultivation facility shall prepare marijuana for transport or transfer to another marijuana establishment by:

- placing marijuana packaged in compliance, with the above items listed, within a sealed, tamper-evident shipping container;
- affixing a label in compliance with 3 AAC 306.475 to the shipping container; and
- generating a transport manifest from the marijuana cultivation facility's marijuana inventory tracking system; the transport manifest must remain with the marijuana at all times while being transported, and a copy must be given to the licensed marijuana establishment that receives the shipment.

Labeling of marijuana

Time Remaining: 0 seconds

When a marijuana cultivation facility packages marijuana for a retail marijuana store to sell to a consumer without re-packaging, the marijuana cultivation facility shall affix a label to each package of marijuana or marijuana product that contains each of the following statements:

- **"Marijuana has intoxicating effects and may be habit forming and addictive."**
- **"Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence."**
- **"There are health risks associated with consumption of marijuana."**
- **"For use only by adults twenty-one and older. Keep out of the reach of children."**
- **"Marijuana should not be used by women who are pregnant or breast feeding."**

With each harvest batch of marijuana sold, a marijuana cultivation facility shall disclose in writing each soil amendment, fertilizer, and other crop production aid applied to the growing medium or marijuana plant included in the batch, including any pesticide, herbicide, or fungicide that was used; and the name of the licensed marijuana testing facility that performed any required laboratory test and the results of each required laboratory test.

A marijuana cultivation facility may not label marijuana as organic.

To each package of marijuana sold to another marijuana establishment, a marijuana cultivation facility shall affix a label setting out:

- **the name and license number of the marijuana cultivation facility where the marijuana was grown**
- **the harvest batch number assigned to the marijuana in the package**
- **the net weight of the marijuana in the package, (not including weight of the shipping container) and using a standard of measure compatible with the marijuana cultivation facility's marijuana inventory tracking system**
- **a complete list of all pesticides, fungicides, and herbicides used in cultivation of the marijuana**

If a marijuana cultivation facility transports wholesale marijuana to another marijuana establishment for sale at retail or for use in manufacturing a marijuana product, a label must be affixed to the shipping container showing that a licensed marijuana testing facility has tested each harvest batch in the shipment as provided in 3 AAC 306.645. The label must report the test results, including:

- **a cannabinoid potency profile expressed as a range of percentages that extends from the lowest percentage to highest percentage of concentration for each cannabinoid listed from every test conducted on that strain of marijuana from the same marijuana cultivation facility within the last three months;**
- **a statement listing the results of microbial testing**
- **a statement listing the results of residual solvent testing required under 3 AAC 306.645, if applicable; and**
- **a statement listing any contaminants for which the product was tested in addition to contaminants for which 3 AAC 306.645 requires testing; any additional tested contaminants include molds, mildew, and filth; herbicides, pesticides, and fungicides; and harmful chemicals.**

If a marijuana cultivation facility ships wholesale marijuana from a harvest batch that has not been tested for each contaminant listed above, the label for that batch must include a statement identifying each contaminant listed above for which that harvest batch has not been tested.

Required Marijuana and Marijuana Product Warning Messages

"Marijuana has intoxicating effects and may be habit forming and addictive."

"Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence."

"There are health risks associated with consumption of marijuana."

"For use only by adults twenty-one and older. Keep out of the reach of children."

"Marijuana should not be used by women who are pregnant or breast feeding."

Marijuana tax to be paid

A marijuana cultivation facility, including a standard marijuana cultivation facility and a limited marijuana cultivation facility, shall submit monthly reports to the Department of Revenue and pay the excise tax required under AS 43.61.010 *(see below)* and 43.61.020 *(see below)* on all marijuana sold or provided as a sample to a marijuana establishment.

AS 43.61.010

An excise tax is imposed on the sale or transfer of marijuana from a marijuana cultivation facility to a retail marijuana store or marijuana product manufacturing facility. Every marijuana cultivation facility shall pay an excise tax at the rate of $50 per ounce, or proportionate part thereof, on marijuana that is sold or transferred from a marijuana cultivation facility to a retail marijuana store or marijuana product manufacturing facility.

The department may exempt certain parts of the marijuana plant from the excise tax described above or may establish a rate lower than $50 per ounce for certain parts of the marijuana plant.

AS 43.61.020

Each marijuana cultivation facility shall send a statement by mail or electronically to the department on or before the last day of each calendar month. The statement must contain an account of the amount of marijuana sold or transferred to retail marijuana stores and marijuana product manufacturing facilities in the state during the preceding month, setting out:

- the total number of ounces, including fractional ounces, sold or transferred;
- the names and Alaska address of each buyer and transferee; and
- the weight of marijuana sold or transferred to the respective buyers or transferees.

The marijuana cultivation facility shall pay monthly to the department, all taxes, computed at the rates prescribed in this chapter, on the respective total quantities of the marijuana sold or transferred during the preceding month. The monthly return shall be filed and the tax paid on or before the last day of each month to cover the preceding month.

Every marijuana cultivation facility shall pay an excise tax at the rate of $50 per ounce, or proportionate part thereof, on marijuana that is sold or transferred from a marijuana cultivation facility to a retail marijuana store or marijuana product manufacturing facility.
