Product Description: Details must include the color, shape, and texture.	Color will be dark amber to golden brown, texture is thick like maple syrup and shape will conform to the container. Proposed flavors on list attached.
Ingredients:	Maple Syrup, Birch syrup, honey, stevia, monkfruit, and/or sugar, Cannabis Coconut Oil (Organic Coconut Oil, Cannabis, Sunflower Lecithin) or CO2 concentrate (from another licensed manufacturer licensee), organic coconut oil, with or without sunflower lecithin, with or without flavor/*essential* oils from the attached list, with or without freeze dried fruit powder (peach, pear, cherry, apple, strawberry, blueberry, mango, raspberry, or lemon) Organic/Fair traded/NonGMO ingredients will be used whenever feasible.
Standard Production Procedure and Detailed Manufacturing Process:	Cannabis Infused Coconut Oil will be used that has already passed state testing (made by mixing coconut oil, marijuana and heating), or CO2 oil from another licensed facility while using low heat on a stove top. We'll do the calculations on what will equate to 5mg THC per serving and mix syrup/honey/sugar according to that. The syrup will then be packaged with proper testing procedures followed and submitted, refrigerated and available for sale only once testing has passed.
