Alaska Medical Marijuana Laws & Regulations

2014 Alaska Statutes
Title 17 - FOOD AND DRUGS
Chapter 17.37 - MEDICAL USES OF MARIJUANA

Safe access to medical cannabis was first approved in Alaska by Measure 8 (1998), an initiative that was supported by 58 percent of voters. Measure 8 created a legal defense to non-registered patients and those who can demonstrate adequate need to possess large quantities of medical marijuana. Alaska Senate Bill 94 was passed in June 1999, modified the law created by Measure 8, removing legal protections for medical marijuana patients who refuse to register with the state health department, or who possess greater amounts of marijuana than authorized by state law.

Codified under Alaska Statute Title 17, Chapter 37: "Medical Uses of Marijuana", the law is officially known as the Medical Uses of Marijuana for Persons Suffering from Debilitating Medical Conditions Act.

Laws:

Measure 8

The voter initiative, approved in 1998 by 58 percent of voters, created Alaska's medical marijuana law, which affords a legal defense to non-registered patients and those who can demonstrate adequate need to possess large quantities of medical marijuana.

Alaska Senate Bill 94

This bill, passed in June 1999, modifies the law created by Measure 8, removing legal protections for medical marijuana patients who refuse to register with the state health department, or who possess greater amounts of marijuana than authorized by state law.

The current, enforced version of the law:

Alaska Statute Title 17, Chapter 37: "Medical Uses of Marijuana"

Regulations:Alaska Statutes Title 17. Food and Drugs Chapter 37. Medical Uses of Marijuana (also referred to as 'Chapter 17.37' or 'AS 17.37'):The regulations contained on medical marijuana in the Alaska Administrative Code are found in Chapter 17.37. "MEDICAL USES OF MARIJUANA." These rules are essentially a restatement of the state's medical marijuana statute and leaves discretionary authority on patient application and card fees up to the Department of Health and Social Services.The following slides in this Lesson outline this regulation.

Legalized Marijuana in Alaska

2014 Alaska Statutes
Title 17 - FOOD AND DRUGS
Chapter 17.38 - THE REGULATION OF MARIJUANA

On November 4, 2014, the citizens of the State of Alaska passed AS 17.38, a law decriminalizing the possession, transport and gifting of less than one ounce of marijuana by adults aged 21 and older and creating a commercialized marijuana industry.

The law is eight pages long and provides that the Alcoholic Beverage Control Board or a Marijuana Control Board created by the legislature has the responsibility for writing regulations enacting the general concepts outlined in the bill.

AS 17.38 became effective on February 24, 2015. The effective date triggered the personal possession rights in the law. The bill contains timelines for the setup of the commercial aspects of the law. The Alaska legislature met in regular session from January 20-April 19, 2015. Although many marijuana bills were introduced, only one bill was passed. That bill created a five member volunteer Marijuana Control Board served by the state agency that serves the identically structured Alcoholic Beverage Control Board.

The following slides in this Lesson outline this regulation.

Purpose and Findings

Universal Citation: AK Stat § 17.38.010

In the interest of allowing law enforcement to focus on violent and property crimes, and to enhance individual freedom, the people of the state of Alaska find and declare that the use of marijuana should be legal for persons 21 years of age or older.

In the interest of the health and public safety of our citizenry, the people of the state of Alaska further find and declare that the production and sale of marijuana should be regulated so that:

- (1) individuals will have to show proof of age before purchasing marijuana;
- (2) legitimate, taxpaying business people, and not criminal actors, will conduct sales of marijuana; and
- (3) marijuana sold by regulated businesses will be labeled and subject to additional regulations to ensure that consumers are informed and protected.

The people of the state of Alaska further declare that the provisions of this Act are
