Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Divine Konfections		
Product Type:	Edibles		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Divine Konfections are in a small pillow-shaped form in attached blocks of 10 with deep scores between each break-off piece. They have a firm, slightly rough texture. The letters "KK" and "THC" alternate on the break-off pieces. Divines come in a variety of colors to go along with their flavors (i.e. Banana = yellow). One break-off piece is one portion and contains up to 5 mg of THC each.
Ingredients: This box is not applicable to marijuana concentrates.	Glucose and/or corn syrup, sugar, thc/cbd concentrate in an alcohol tincture, flavor's essential oil and/or natural or artificial flavoring, natural or artificial food coloring, lecithin, citric acid, citrus zest. Flavors are both pure and combinations of the following: apple, apricot, banana, blackberry, blueberry, butterscotch, caramel, cherry, chocolate, cinnamon, clove, coconut, coffee, cream, dragonfruit, grape, ginger, grapefruit, guava, hot cinnamon, kiwi, lemon, lime, lychee, mango, mint, mixed berries, menthol, orange, passionfruit, peach, pear, peppermint, pineapple, pumpkin, raspberry, root beer, spearmint, mixed spices, strawberry, strawberry lemonade, rhubarb, tangerine, watermelon, wintergreen, and vanilla.
Standard Production Procedure and Detailed Manufacturing Process:	Add glucose syrup, sugar, and water into a pot over medium-high heat. Bring syrup to boil. Stir while syrup boils. As soon as syrup reaches the hard crack stage, remove from heat. Add thc/cbd concentrate, flavorings, any powders or zests, and food coloring. Whisk until all ingredients are incorporated. Pour into molds and cool. Place blocks into packages. Send to lab for testing before sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Wording indented on the top will alternate "KK" and "THC". Shown below are a block as packaged as well as broken-off individual pieces.  AMCO FEB – 5 2021

Product Name:	Heavenly Konfections		
Product Type:	Edibles		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Heavenly Konfections are in a small cube form. Approximately 5/8" cubed. They have a semi-soft and malleable texture. They are slightly rough and sticky to the touch. Heavenly Konfections come in a variety of colors to go along with their flavors (i.e. Banana = yellow). One candy is one portion and contains up to 5 mg THC each.
Ingredients: This box is not applicable to marijuana concentrates.	Glucose and/or corn syrup, sugar, thc/cbd concentrate, butter, essential oils, natural and artificial flavoring, food coloring, cocoa powder, vanilla bean powder, lecithin, citric acid, citrus zest, salt. Flavors are both pure and combinations of the following: apple, apricot, banana, blackberry, blueberry, butterscotch, caramel, chai, cherry, chocolate, cinnamon, clove, coconut, coffee, cream, dragonfruit, egg nog, ginger, gingersnap, grape, grapefruit, guava, kiwi, lemon, lime, lychee, mango, mint, mixed berries, mixed spices, menthol, orange, passionfruit, peach, pear, peppermint, pineapple, pumpkin, raspberry, rhubarb, spearmint, strawberry, strawberry lemonade, rhubarb, tangerine, tea, watermelon, wintergreen, and vanilla.
Standard Production Procedure and Detailed Manufacturing Process:	Add glucose syrup, sugar, butters and any powders or zests into a pot over medium-high heat. Bring syrup to boil. Stir often. Add the thc/cbd concentrate mid-boil. As soon as syrup reaches the firm ball stage, remove from heat and add flavorings and food coloring. Whisk until all ingredients are incorporated. Pour into molds and cool. Once cooled, individually wrap. After testing, package.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 Wrapping variation A.  Wrapping variation B. AMCO FEB – 5 2021

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Kreative Konfections LLC	**MJ License #:**	17389		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Kreative Konfections LLC				
Premises Address:	2301 S. Knik-Goose Bay Rd., #5				
City:	Wasilla	**State:**	Alaska	**ZIP:**	99654

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Fireweed Extracts FECO		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packages will be an applicator syringe inside white or black (front) and clear (back) mylar heat-sealed child-proof bags or blister packs. Syringe sizes will range from 1 ml to 10ml. Bags will be approximately 3.5"x 5" to 5"x7". FECO will come in 1/2, 1, 2, 3, 3.5, 4, 5, 6, or 7 gram amounts. The total amount of THC will vary with the original product used to create the concentrate, and will range from 5% to 90%.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Fireweed Extracts Old School Hash		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Old School Hash can range from light to dark green or from light to dark brown in color. Shape is a pressed block or coin. May have a logo or words pressed into one or both sides. Texture is firm with a gritty surface.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Kief will either be obtained from a cultivator and, if needed, dry-sifted with a set of screens to remove other plant matter, or will be separated from purchased flower or trim using dry-ice separation and/or a rolling screen. A hydraulic press will be used to press into disks or blocks. At this point the product will be sent for testing. The resulting hash will either be separated for sale and packaged, or transferred as large blocks/disks to stores that have deli-style sales. Pre-packaged hash will vary in size from 0.5 grams to 7 grams.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

For pre-packaged Old School Hash, it will be placed in parchment or ptfe paper folds or small glass jars. Colors of paper may vary from clear to white to natural brown. Size of jars will vary with the amount of hash to be held, from 0.25" to 2" in diameter. The tops of the jars may be pre-printed with a logo. The paper-wrapping or glass jars will then go into outer mylar bags, clear front with white or black back, approximately 3" x 3" up to 6" x 9". Old School Hash may come in 0.5, 1, 2, 3, 3.5, 4, 5, 6, or 7 gram packages. Total THC will vary from 10% to 80% of total weight, depending on original kief used.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Fireweed Extracts Infused Joints		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Infused Joints are pre-rolled joints in paper coated in HTE Sauce and then dipped/rolled in kief. They are about 3 to 5 inches long. Green to Brown in color. Firm with a gritty surface in texture. Papers used for the pre-rolls can be bleached white or natural tan colored. May be in 1/2 gram up to 5 gram sizes.

Ingredients:	

Standard Production Procedure and Detailed Manufacturing Process:	Prior to assembly, all products to be used will have been lab-tested for potency, microbial, and/or residual solvents as appropriate. Pre-rolled joints of varying sizes (0.5 grams up to 4 grams) will be obtained from the cultivator. Joints will be dipped into or brushed with HTE Sauce, then rolled or dipped into kief. Neither the added HTE Sauce nor the Kief will exceed 1.0 grams in weight on one infused joint. After drying, the joints will be placed into tubes and labeled for sale.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packages will be clear or natural plastic, glass, or hemp-derived plastic joint tubes, which may come in varying colors depending on availability. Tubes are about 4 to 6 inches long and 1/2" to 1" in diameter, and are child-proof. Small cardboard inserts may be used to keep the joints from touching the sides of the tubes. May be placed into outer mylar bags, clear front with white or black back, approximately 3.5" x 6". Joints may be from 0.5 gram to 5 grams in weight. Total THC will vary with the products used to assemble the Infused Joints and can range from 25% to 75% of the total weight.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
