| Staff questions for Board: | Per 3 AAC 304.015(c) a licensee may not lease its licensed premises to another person for any reason. The clarification I am requesting is how the board views a licensee having on their lease an agreement between their landlord, their marijuana business entity, and additionally their own non-marijuana business such as a consulting business which requires no additional physical equipment. This is technically not leasing any of the property to a different person, but is a shared lease between two of the licensee's businesses. |
