# Form MJ-16: Proposed New Marijuana Product

**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

**Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.**

## Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

| | |
|---|---|
| **Product Description:** Details must include the color, shape, and texture. | Caramel Candies have a shiny tan color. They are firm squares, sticky to the touch but melt in your mouth when consuming. |
| **Ingredients:** | Brown sugar, Demerara sugar, butter, agave, sweetened condensed milk and Cannabis Concentrate (Cannabis Concentrate will consist of either; crumble, shatter, rosin, kief, wax, tincture, natural fat extraction butter or cannabis oil) Actual Cannabis Concentrate used in production will be clearly indicated on the final product label. Higher Altitude Manufacturing may also use one or more of the following preservatives: sorbitol, potassium sorbate, citric acid, malic acid, lecithin, arabic gum, modified food starch, butylated hydroxyanisole (BHA), maltodextrin, and invertase. |
| **Standard Production Procedure and Detailed Manufacturing Process:** | In a large sauce pan take the butters, sugars, and agave and bring them to a boil. Once the mixture has come to a boil, reduce the heat to medium and continue stirring until the mixture starts to thicken. Next add the sweetened condensed milk , preservatives (if necessary) and cannabis concentrate and continue stirring till the mixture returns to medium brown. Lastly add the vanilla and pour on to a lined baking pan to slightly cool. Once the caramel cools, top with salt, cut into equal portions, and package. |
| **Depiction:** Provide a photograph, drawing, or graphic representation of the expected appearance of the final product. | |
