Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Garden Gummies		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year (Frozen)
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Garden Gummies will range in muted colors (see color variations in ingredients list). They will be oval or round shaped (depending on mold used), with or without a hole in the middle, with a rough sugary exterior and gummy center.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), flavored gelatin (Strawberry/pink, Lemon/yellow, Orange/orange, lime/green, Blueberry/blue, Cherry and red raspberry/Red)(packaged per flavor or as a flavor variety pack), Agar Powder (vegan), unflavored gelatin, sugar, citric acid, essential oil, sorbitol powder, glucose syrup, tartaric acid, cornstarch, fractionated coconut oil, carnauba wax, beeswax coating, artificial colors (Flavor Depending), pan release spray (non allergen). Actual C02 concentrate used in production and flavor/flavor variety packaged will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Heat Gelatin or agar powder (vegan) and other ingredients with water in a saucepan over medium to low heat for 10-15 minutes stirring occasionally and slowly to avoid burning. After heat, pour mixture into molds and chill for 15-20 minutes.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	*colors are for illustration purposes only, actual product color will be muted

Product Name:	Garden Gummies
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Garden Gummies will be packaged in child resistant, food grade, opaque pop tops or mylar bags with a clear display window. If mylar bag is used as packaging, Gummies will be placed in an opaque container prior to customer leaving the store. One gummy equals one serving and 5 mg of THC. Each pop top or mylar bag will contain either 5 or 10 individual servings totaling either 25 mg of THC per package or 50 mg of THC per package. Flavor variety packs will have all flavors within the package listed on the final product label.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	GARDEN GUMMIES: Please see below for sample label. Note: these labels will wrap around the pop tops or on the CR Mylar bag. Total amount of THC will be indicated on label based upon total servings per package. Example below reflects label for a total per package of 25 mg.

Product Name:	Cotton Mouth Candy		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Cotton Mouth Candies will be round disk shaped candies with a smooth, possibly slightly oily, hard exterior. The candies will range in muted colors (see color variations in ingredients list). The texture is definitely hard and crunchy when chewed.

Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), sugar, water, corn syrup, food coloring (Flavor Depending), essential oils, flavoring (Blue Raspberry/blue, Fruit Punch/red, Lemon-Lime/yellow, Watermelon/pink, Grape/purple, Green Apple/green, Butterscotch/orange, Mint/clear-light yellow), tart and sour flavor enhancer, citric acid, malic acid, sodium citrate, pan release spray (Non Allergen). Actual C02 concentrate used in production and flavor/flavor variety packaged will be clearly indicated on the final product label.

Standard Production Procedure and Detailed Manufacturing Process:	In large saucepan, mix together the sugar, corn syrup and water until dissolved. Cook the mixture at 300-310 degrees until it reaches the hard cracked stage in a large saucepan. When ready it should start to yellow around the edges of the pan. Remove from bumer to begin cooling. Quickly add any flavoring and food coloring. Pour the liquid candy into an aluminum foil lined pan or partitioned form to separate. Mark the candy into partitions containing no more than 5mg of THC per piece. Once hardened, remove the candy from the foil. Indentations from forming should break apart easily or use a knife to separate candy servings.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	*color is for illustration purposes only, actual product color will be muted

Product Name:	Pot Brownie		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year (Frozen)
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Each Brownie is square in shape and ranges from light brown to black and may or may not be covered with a ganache topping (whipped filling with chocolate and flavored cream - (dependent on availability). The consistency ranges from soft to firm.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), flour, sugar, butter, salted butter, egg, cocoa powder, heavy cream, chocolate, nuts, butterscotch, mint chips, chocolate chips, cinnamon, nutmeg, cayenne, pan release spray (non-allergen). Actual C02 concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Mix wet and dry ingredients separately, then combine. Bake in greased pan at 350 degrees for 25-30 minutes. Add ganache topping after cool. Ganache topping: whisk chocolate, heavy whipping cream, and flavored ingredients together and melt with a double boiler. Add butter after heat to consistency of choice.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	THC Truffles		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	2 Years (frozen)
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Each truffle is round in shape and ranges from light brown to black and may have an additional chocolate drizzle covering the top. The truffle is chocolate on the outside and a flavored ganache (whipped filling with chocolate and flavored cream) on the inside. The consistency ranges from smooth to speckled on the outside with a creamy center.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), dark chocolate, coco, heavy whipping cream, semi sweet chocolate, butter, corn syrup, chocolate chips, luster dust, coconut, nuts, chocolate shaving, cinnamon, fruit puree, citrus zest, flavored oils, pan release spray (non-allergen). Actual C02 concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Chocolate: combine heavy whipping cream and melted chocolate with butter in a double boiler. Ganache: whisk chocolate, heavy whipping cream and other choice ingredients together with butter and corn syrup (for flavor and texture) and dip into chocolate. Let rest for 12-24 hours. 2 week shelf life at room temperature. For longer term storage, refrigerate for 24 hours before freezing to prevent temperature shock. Temper to store in freezer for up to 2 years and avoid temperature changes. Thaw at room temperature before removing from individual packaging.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Comfort Caramels		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year (frozen)
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Comfort caramels will be square or oval shaped with color ranging from light brown to dark brown. Texture will be smooth on the outside with a chewy center.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil,), butter, brown sugar, sweetened condensed milk, corn syrup, salt, vanilla extract, pan release spray (non allergen). Actual C02 concentrate used will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Line a baking dish with greased parchment paper. Over medium heat, warm the cream, butter and salt in a saucepan until the butter melts. Remove from heat. In another saucepan, combine the sugar, corn syrup and water. Stir until the sugar is evenly moistened to form a thick grainy paste. Wipe down the side of the pan with a damp pastry brush removing sugar crystals from above the mixture. Immerse a thermometer into the mixture. Do not stir at this point. Cook over medium heat. Let the mixture come to a boil without stirring. When mixture hits about 250 degrees the syrup will turn transparent and boil rapidly. Around 320 degrees the syrup will darken slightly. After heat, whisk warm cream and butter into the sugar syrup gently. Return to heat letting the caramel come to a boil without stirring. Color will start off as a soft buttery yellow and turn into a dark reddish brown caramel. whisk vanilla into final mixture. Pour caramel into mold and rest for at least two hours. Separate into single servings from mold and package.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Axion Enterprises, LLC	**MJ License #:**	12769		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Secret Garden Cannabis				
Premises Address:	726 E 15th Ave suite 2				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99501

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Blitz KrAKers		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Received by AMCO 3.18.21

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Blitz KrAKers will be square, crunchy crackers. The color will vary from pale white or yellow to dark orange with black or brown spots.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), salt, flour, butter, cheese (cheddar, parmesan, blue, pepper jack, gouda, provolone), (with or without) white pepper, black pepper, onion powder, garlic powder, lemon pepper, turmeric, rosemary, thyme, sesame seeds, poppy seeds, ground mustard, pimento, red pepper flake, chili powder, cayenne, jalapeno, pan release spray (non-allergen). The Blitz KrAKers label will be cheese specific. Actual C02 concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Mix cheese, butter and salt. Add flour and then water until dough forms. Wrap dough in plastic wrap and chill. Roll out dough and cut. Bake in oven at 350-375 degrees F for 20-30 minutes (depending on size and desired consistency).
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Received by AMCO 3.18.21

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Blitz KrAKers will be small bite size crackers. The crackers will be packaged in Child Resistant (CR), food grade, opaque pop tops and/or Child-Resistant (CR) mylar bags. One cracker equals one serving and 5mg of THC. Each pop top and/or mylar bag contains 2 crackers totaling 10mg of THC per package, 5 crackers totaling 25mg of THC per package or 10 crackers totaling 50mg of THC per package.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Blitz KrAKers: Please see below for sample label. Note: Total amount of THC will be indicated on label based upon total servings per package. Example below reflects label for a total per package of 25mg of THC. Label will be placed either on the Child-Resistant (CR) pop top or mylar bag.

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Received by AMCO 3.18.21

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	EZ Bakes will be small bites of baked macaroni and cheese. They will be the size of a mini muffin and will have similar dimensions. The EZ Bakes pasta bites will have a slightly crispy exterior with a soft, chewy interior. Color will range from pale white or yellow to dark orange with black or brown spots.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), macaroni, flour, butter, milk, salt, pepper, egg, cheese (cheddar, blue, parmesan, mozzarella), (with or without) bacon, ground mustard, cayenne, chili powder, nutmeg, onion powder, garlic powder, bread crumbs, panko, green onion, pan release spray (non-allergen) The EZ Bake label will be cheese specific. Actual C02 concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Cook pasta according to packaged directions, set aside. In heavy bottom sauce pan combine butter and flour. Whisk until butter is melted and mixture is smooth. Add milk and bring to a simmer. Mix in any cheeses, seasonings, bacon and other ingredients. Stir until smooth and creamy. Remove from heat. Carefully combine the cheese mix with the pasta and egg until evenly mixed and pasta is evenly coated. Scoop out pasta with portion scoop into muffin pan and bake at 375-400 degrees F for 15-25 minutes depending on size and desired texture.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Axion Enterprises, LLC	**MJ License #:**		12769	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Secret Garden Cannabis				
Premises Address:	726 E 15th Ave suite 2				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99501

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	High Fives		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Received by AMCO 3.18.21

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	High Fives will be square, bite size, chewy and slightly sticky. The color will range depending on the flavor: yellow/lemon, red/cherry, orange/orange, green/lime, purple/grape, pink/strawberry, blue/tropical.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), sugar, corn syrup, butter, salt, (with or without) citric acid, food coloring, flavor extract, cornstarch, Kool-Aid powdered drink mix, fruit juice, fruit juice concentrate, pan release spray (non-allergen). Actual C02 concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Combine the butter, corn syrup and sugar in heavy bottom sauce pan. Stir until combined. Insert candy thermometer and cook until 245-255 degree F. Mix in any citric acid, flavor extract, food coloring and other ingredients. Pour into a lined and/or oiled pan. Allow to cool completely, then divide and cut.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	High Fives candy chews will be packaged in Child-Resistant (CR), food grade, opaque pop tops and/or Child-Resistant (CR) mylar bag. One candy equals one serving and 5mg of THC. Each pop top and/or mylar bag contains 2 candies totaling 10mg of THC per package, 5 candies totaling 25mg of THC per package or 10 candies totaling 50mg of THC per package.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	High Fives: Please see below for sample label. Note: Total amount of THC will be indicated on label based upon total servings per package. Example below reflects label for a total per package of 10mg of THC. Label will be placed either on the Child-Resistant (CR) pop top or mylar bag.

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
