---

Good morning;

I have reviewed your corrections but still need more work.

- MJ-01-page 3: please provide a sample of the identification badge displayed by each licensee, employee, or agent while on the premises. Make sure the name of the establishment on the sample ID is of this particular establishment and not another establishment's name.

- MJ-02: your corrected diagram shows two dotted lines, the darker dotted line is a security fence and restricted access areas according to your legen. But,

    - what about the light gray dotted line that you say is the licensed premises, will that be a physical barrier or fence also? Essentially, your corrected diagram shows a gap between the licensed premises and restricted access area fence.
    - Where is the entrance(s) and exit(s) in and out of the restricted access area (the gray dotted line)?

- MJ-04-page 5: the correction to this page still does not reflect a good understanding by you of the regulations. Please re-review 3 AAC 304.455 and 3 AAC 306.465 and provide an answer that addresses both regulations and that clearly shows your understanding.

- MJ-07: did you actually re-post the public notice for 1 more day?.. Your new MJ-07 states that. If you did not will you just correct and initial the corrections on the original MJ-07 to reflect the information requested on original incomplete letter (I attached it to this email). Excerpt from original incomplete letter:

    - **MJ-07 Public Notice Posting Affidavit**

        - The context of "Licensee" on page 1-section 1 is the name of the LLC. Please correct.

        - Since the LLC is leasing the entire warehouse, and to avoid confusion please remove "Units 1-8" from the premises address section on page 1.

Branden, I understand that this is your third application and that you currently have a license that was approved by the board. I just want to let you know that I was not the examiner who reviewed that application.
I have been an examiner in this office for almost three years (before Ballot Measure 2). I have at least listened to every board meeting since marijuana applications started being considered by the board and have taken upon myself to pay attention to the questions they ask of applicants and make notes to create my own list of questions to ask the applicants when reviewing application. One example is that the board likes to see more elaborative answers to the questions, after all, this is the operating plan your business is running off of.

I could go on and on but my summary is that I do not try to create confrontations with any applicant by asking for the information the board wants to see. I am just trying to perform my job correctly.

Thanks, Branden.

Thank you
Jane Sawyer
