Mr Bailey,
Regarding the MJ-00 document, the "no" box is checked on the forms when it is printed from the AMCO website. We both checked the "yes" box, as that was the applicable answer. We will submit the page in question with the check mark in the no box white out, as it reprinted with the box already checked again.

As for the premises diagram, a set of engineered blueprints was included as an attachment for the premises diagram. I believe that all secure areas are indicated on those blueprints on page S3. I will forward an additional diagram showing the location of all security cameras, as well as an aerial diagram denoting the facility and grounds based on the borough plat of the property.

I will have an addendum to the lease made to plainly state that the premises is to be leased to Greenstar Inc. for use as a standard marijuana cultivation facility, as well as the default and non seizure clause.

I will have the corporate operating agreement sent as well.

Thank you,
Jason Bott.
