Subject: Public comment on 3 AAC 306.840 proposes to insert language to adopt by reference the Marijuana Control Board fine schedule date March 23, 2021.

Dear Honorable Marijuana Control Board Members,

The Marijuana Control Board proposes to adopt regulation changes in 3 AAC 306.840

We support this regulation change as written.

We believe the outcome of this fine schedule vs the first Fine Schedule that the Marijuana Control Board introduced is a good step forward for both the Board and the industry alike. In large part, the success of this fine schedule transpired because the Marijuana Control Board invited in industry owners and even some advocates to address the robustness and complexities of a fine schedule in the cannabis industry.

Through the course of multiple work sessions and a survey, the cannabis industry and Marijuana Control Board imagined real-life scenarios, invested a lot of volunteer time and forethought, and gathered industry comments and suggestions. Which then manifested into the final fine schedule product we see being proposed to be implemented now.

The Alaska Marijuana Industry Association sincerely enjoyed our solution-oriented collaborations that further move our industry and the State forward in an optimal direction. We enjoyed working with James Hoelscher and his enforcement team, Director Glen Klinkhart, and the Marijuana Control Board members that weighed in during the duration of work session meetings and emails.

Lastly we would like to thank the AMCO staff for their hard work and dedication to the Alaskan Cannabis Industry.

Respectfully,

Alaska Marijuana Industry Association
Board of Directors & Governance Committee

The Alaska Marijuana Industry Association is Alaska's only statewide cannabis industry trade group.
Our mission is to promote and advocate for a vibrant and reasonably regulated Alaska-based marijuana industry. The AMIA serves to strengthen and enhance a network of connected, independent, informed, regionally and community-directed Alaska marijuana organizations.
