Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Canna Concentrate		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	12 Months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible/Wholesale/Topical/In-house		

Product Description: Details must include the color, shape, and texture.	Canna Concentrate is a translucent liquid that takes the shape of its container. Canna Concentrate varies in color from white to yellow and tan. Canna Concentrate has a watery consistency with a slightly oily texture.
Ingredients:	Cannabis concentrate, Nano-stabilizer (Proprietary blend of food-grade GRAS carrier oils, emulsifiers, preservatives), Natural flavors* (to sweeten), water. Natural Flavors include Tru-Sweet, Tru-Block, Tru-Clear brand natural flavor modifiers.
Standard Production Procedure and Detailed Manufacturing Process:	Canna Concentrate is a cannabis concentrate purchased from a licensed manufacturer. North Star Fire Canna Concentrate is a THC emulsion that is water soluble. THC concentrate will be melted and mixed with proprietary emulsifier blend, then add natural flavors to modify taste to compliment product, add water and continue mixing under heat, once thoroughly mixed, product is run though an ultrasonic agitator, after agitation cycle is complete, product is filtered and stored. Additional natural flavors may be added to dial in flavor with specific product after emulsion. Canna Concentrate is then cooled and properly labeled and stored before being used in-house to create other edible products. Actual concentrate used will be clearly indicated on the final product label.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Canna Concentrate
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Canna Concentrate will be stored in clean and sanitized containers to be sealed. The total volume and weight will vary with each batch. Each batch will be stored in separate containers and each batch will be entered in METRC as a separate package. Each batch will be tested, per AMCO regulations. Each container will be marked with the name of the product, METRC package number, date, test lab, lab license number, strain and test results. Wholesale Canna Concentrate will be stored in plastic containers. After acceptable test results are obtained, it may be infused into edible products. Canna Concentrate will be used in-house to create edible products or sold wholesale to be used in the production of edible or topical products.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	*Final label will include approved ingredients list and THC levels. **Produced By**: North Star Fire **License Number**: 18493 **Product Name**: Canna Concentrate **Strain**: **Batch/Lot Number**: **Gross Weight**: **Net MJ Weight**: **OZ(g)** **Best By Date**: **Packaging Date**: **Tested By**: **License Number**: **Total THC**: **THCA**: **CBD**: **CBDA**: **CBN**: **Microbial Test**: **Pesticides**: **Herbicides**: **Fungicides**: **Residual Solvent Test**: **Contaminants Test Result**: Retailer: License Number: **Alaska Safety Warning: Marijuana has intoxicating effects and may be habit forming and addictive.
