Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Bubble Hash		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	smokable		

Product Description: Details must include the color, shape, and texture.	Bubble Hash will appear pale-golden to reddish-brown to greenish-grey. Texture will vary from a soft fine powder, to solid and pliable chunks. Most hash will be fully opaque, however, the highest-grade hash may at times suggest a degree of translucence. Bubble hash will be sold in a powdered form, pressed into "cakes", or left in the clumpy state it appears in when first dried. Variation in color, shape and texture will occur based on season, variety, age and grade.
Ingredients:	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Dried or frozen cannabis will be put in synthetic mesh bags and inserted into a ice water bath to be agitated for a period of time. After agitation, liquid will be drained through a series of mesh bags to refine and filter the hash from the water. Bubble hash will then be collected and dried and will then either be left as-is, hand rolled into strips or balls, pressed into cakes/bars by hand or with a hydraulic press.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
