To whom it may concern,

I am an Eagle River resident and I fully support the application listed below.

Application for Marijuana Establishment License License Number: 29087
License Status: Initiated
License Type: Retail Marijuana Store
Doing Business As: Alice's
Business License Number: 2126763
Email Address: info@alices-ak.com
Physical Address: 12111 Horseshoe Drive Suite 1 Eagle River, AK 99577

Sincerely,

Donna L. Schopp

The Eagle River CC is hosting a brief by Alice's to bring marijuana shop to Eagle River.

I am adamantly opposed to any such establishment regardless of where they propose to set up shop. This includes the Eagle River and Chugiak area. There are more than enough shops in the surrounding areas (anchorage and the matsu).

Like to state my disapproval for granting a license.

It feels like we are saturating the market with shops. Eagle River is in that limbo position of being between Anchorage and the Valley. Both areas have plenty of available businesses to handle the demand of the Eagle River bedroom community market.

Our police presence is limited and not really sure of the impact to the police workload it might have. But the last thing we need is an increase in DUI's due to the ease of purchasing. Our police force has higher priorities that require their attention instead of be distracted from a situation that can be prevented.

Thanks for your time,

Craig Morrison

We got a notice for public review of a Marijuana retail story in Eagle River.

I am for this type of retail space, and would like to see the taxes collect go to projects in Eagle River, parks and rec projects or something similar.

We are familiar with the area, and have a home nearby on Hanson Drive.

Hello,

We have been waiting for a marijuana dispensary in Eagle River!! I have lived here for many years. Very happy this will save on trips to Anchorage or Wasilla, where there are many places to go everywhere. This community has been lacking for a long time now. I support this business to be opened ASAP, and wanted to provide a positive perspective, since I'm sure you will get many negative comments.

Thank you,
Jennifer Miller

Hello!
I'd like to let you know that I am greatly in favor of a license being issued for an Eagle River cannabis store. It is long overdue and would help a lot of people. I attended an Eagle River council meeting last month, and a cannabis business owner from Anchorage noted that many people from Eagle River come into his shop and wished there were an Eagle River location.

I have been here for 40+ years and know how traditional Eagle River is. I think out community can handle whatever controversy is presented here. I don't think it would disgrace any part of Eagle River's heritage. It's the only town of this size, or at least one of few that does not have its own shop. It should be noted that the distance isn't as much a factor of going to stores but that in the winter, traveling to Anchorage can be treacherous. It's a hardship and an inconvenience, especially for those people who do not work in Amchorage.
I hope that you will consider letting the community weigh in, and for those who are opposed, they can simply stay away.
Thank you for your time.

To whom it may concern.

I am writing in support of the State of Alaska issuing a Marijuana Establishment License to “Alice's” (business license #2126763).

The ONLY reason Eagle River does not have a marijuana retail store was due to our having two anti-marijuana members on the Anchorage Assembly at the time the laws were being written. While a majority of Alaskans voted to allow the sale of marijuana in the state, these Assembly members decided to usurp the will of the voters and redline Eagle River out of the picture.

Providing “Alice’s” conforms to the applicable laws and regulations currently in place, I wholeheartedly support their application and their receiving a license.

Best regards,

TO WHOM IT MAY CONCERN.
I have lived in Eagle River since 1981, so I have seen many changes. So were good and some not so good. I think the approval of the retail marijuana store DBA AS: Alice's **WOULD NOT BE GOOD FOR THE COMMUNITY!!!!!!!!!!!!**
I live on Center St. in Eagle River, in the vicinity of Schroeder Park, and a hangout for people smoking marijuana and other drug activity. With this activity comes thievery, I have had my shed broken into and over $ 13,000 worth of tools stolen, batteries stolen out of my RV along with breaking in, and anything that they thought had value. My neighbors have been through the same thing, everything from bicycles to lawn chairs. Which is attributed to drug use, so a marijuana store would only add to the problem!!!!! There are plenty of marijuana stores in Anchorage and the Valley, for those that choose purchase it. In 2014, 55% of the people of Eagle River and Chugiak voted not to approve the legal use of marijuana. The approval of this license would lead to further illegal activities and undesirable people in the neighborhood. This will have detrimental affect on the property values in the area. Along with youth activities being held at a local fraternal organization, along with other community functions.

Hello,
I am an Alaskan Resident and live in Eagle River. I am in favor of Alice's Retail Marijuana Store. I think it's a great location, off a main road for those that do not approve, and the Eagle River community will benefit in multiple ways. To be honest, I am surprised by there not being any dispensary locations in Eagle River, considering we are under/included in the Anchorage municipality. In fact I don't fully understand why a dispensary opening here is a big deal since there are so many in Anchorage and around the State. Eagle River has multiple liquor stores and restaurants that serve alcohol, I see alcohol as a far more dangerous substance than marijuana....people consumer alcohol at a restaurant and then drive, but this is not considered an issue. Currently marijuana is to be consumed only at home! Therefore, I do not see any negative effects this would bring our town.
In the near future, I hope to see more than one dispensary open in the Eagle River community. I hope all is approved, no doubt it will do fantastic, it will also benefit other local ER businesses and boost our economy! Win win! Let's support our community by bringing new businesses, not rejecting them.
Sincerely,
TA Boyle

AMCO

My name is Lois Elena Shawback and I am an active member of the Eagle River Community. The community needs to encourage growth of local businesses. The location is appropriate for this type of business. These businesses are located throughout the municipality except for the Eagle River Chugiak area. The main reason for them not currently in our area is a few politicians campaigning against them. It is not the opinion of the majority in the community but that of a select very loud few. As long as the establishment maintains all the legal requirements there is no reason they should not be allowed to operate in the area.

I am writing this letter to encourage the AMCO to approve this application.

Sincerely.

Dear Sir or Madam,

My wife and I are adamantly opposed to issuing a license to sell marijuana and other assorted products in the Eagle River. There are already enough of these business elsewhere in Anchorage and Wasilla where these products can be purchased. Our community should not be a destination for marijuana users who are more than likely already under its influence as they run out and shop for more.

Subject: Comment on marijuana application.
Date: Thursday, April 29, 2021 8:57:39 PM

I appreciate the fact that I have an opportunity to make my personal position publicly known.

I must recommend the denial of the permit, licensing or approval for a “pot shop”, marijuana store or whatever verbiage they identify with.

Eagle River has a very small and fragile business community. The business leaders have spent decades building successful business cliental that could easily be jeopardized by the influx of the users of available drugs. Whenever drug laws and the availability of drugs are relaxed, homelessness, vagrancy and crime rates have always had a tendency to increase. Eagle River has been experiencing, I feel, more than the usual amount of crime increases this past 2-3 years. The responsible citizens of our community try to keep our environment and community safe and I hope the intent of this hearing and comment period is to recognize this and help us on a higher level.

We are also very fortunate to have an excellent group of law enforcement agencies that still have the respect of our citizens. They, nor we, need any additional stress or turmoil in our everyday, or professional lives.

Thank you again for this opportunity to voice my opinion.

Best regards

Dear Sir or Madam,

In response to awareness of a recent application for a new marijuana business in Eagle River, namely Alice's #2126763, I must share my opinion of strong opposition.
Several reasons are of concern. First, just as I must travel to visit Anchorage- based businesses such as CostCo, Cabela's, Michael's or Moose's Tooth, there is no reason one cannot also travel to visit Anchorage's pot shops. Second, there are already many prior established marijuana businesses to choose from. Third, if I recall correctly, the residents of Eagle River previously opposed the opening of such businesses in our community. Finally, Eagle River is a family community. People who reside here want a safe place to raise kids & live in peace. Residents choose Eagle River because it is not big city associated with big city businesses & life styles. There are certain stigma's associated with pot shops & certain less-than-admiral behaviors associated with folks who frequent marijuana shops; and frankly, I don't want this type of business in my community. I fail to see how encouraging the sale & use of marijuana will benefit my community. Please consider denying this application for the establishment of Alice's, or any other marijuana business, in Eagle River.
Than you for your time,
Sydney Wetzel

Dear Marijuuana Licensing,

We have enough drivers who are absent-minded, but when people use Marijuana they often become unsafe to drive, and this is my concern with having a local establishment to sell marijuana in Eagle River, my hometown. Just because people enjoy the weed, it does not make sense for them to drive and operate heavy machinery when under the influence of it.

Thank you,

Virginia Marquez

Subject: Proposed Alice's marijuana dispensary in Eagle River (business license #2126763.)

Dear Sir/Madam:

My name is Bob Martin. I'm writing to offer my whole-hearted support for the issuance by the State of Alaska for a Marijuana Establishment License to “Alice’s” (business license #2126763.)

I base my recommendation on a variety of factors. These factors include my residence in Eagle River of almost 40 years, commensurate with almost four decades as an active commercial real estate agent. These experiences persuade me that this is a business that will not only thrive in my community, but it will also represent it well by: 1) adhering to all applicable rules and regulations; and 2) being a good for-profit business, thereby contributing to our city as a whole.

Since marijuana sales were legalized in Alaska, it has been my observation that marijuana dispensaries typically improve the value of the building they are in and help to increase the security of the surrounding area, through close attention to ID checking and cameras on or about the premises.

A marijuana dispensary will often move into an underutilized property and makes it better. Dispensaries place a premium on creating an attractive, inviting and secure destination for their customers and the state’s regulations help to insure their status as good neighbors. As a result, the value of the building often increases as do the values of the surrounding properties. I am very familiar with the proposed location for Alice’s and feel it is well-suited for this business type. There is no reason a marijuana customer should have to drive into Anchorage to purchase this product.

I also base my recommendation on the many years that I have known Chris Shill. As the owner and hard-working operator of Wintergreen Services, Chris has faithfully plowed our driveway snow storm after snow storm and I have come to know him as a friend and to trust him with my property. I think he is a serious person who will bring the right business acumen and careful professionalism that this particular business will demand. I look forward to watching him make a success of it.

I thank you for taking this letter of support into account as you deliberate on the approval of this application.

Sincerely,
Robert D. Martin
Eagle River, Alaska

AMCO received 11/17/2021

As a resident of Eagle River, I whole heartedly support, and welcome a retail marijuana dispensary in our community. The state of Alaska legalized recreational use of marijuana in 2014. This legalization made Alaska only the 3rd state in the union to decriminalize and industrialize the recreational use of marijuana putting Alaska at in the forefront of the industry. It is now 2021, and the community of Eagle River-Chugiak still does not have a dispensary within its boundaries. Considering recreational dispensaries have been legal for almost 10 years the lack of a retail business in this area is a completely missed opportunity.

This is a legal industry that will provide our community with additional opportunities for growth as well as a new stream of revenue. Concerns about theft, and impaired driving that have previously been mentioned as a means to deter a retail shop from opening in Eagle River are an unfounded dog whistle as there are several businesses that sell alcohol within our community. Residents of this area who responsibly use marijuana should be able to spend their money purchasing these products in the community. Retail shops are a revenue generator, and this is something we need in Eagle River. Personally, I do not use marijuana, but it is not my place to restrict what other adults do with their free time as recreational marijuana is legal. There is no good reason to not support a retail marijuana business from opening in our community.

I welcome a retail marijuana shop to open in Eagle River, and am happy to support the owners of Alice's in their business venture. Hopefully this business will be able to revitalize one of our currently vacant storefronts, and become a wonderful part of the community.

Sincerely,
Daniella May

Daniella N. Ambrosino May

Members of the Anchorage Assembly,

I would like to show my support for the application for Alice's marijuana store in Eagle River.

Alice's would generates money for the State through local retail sales tax, generates revenue for the Municipality of Anchorage through the fees for licensees and permits, generates income for local businesses such as contractors, electricians, architects, and hardware stores for the renovations required to open such a business, allows residents access to clean, tested products, increased property values, improve the safety of the communities where they are located, and create year-round jobs for local residents.

Please approve Alice's application.

Thank you,

Chris Hembach of Eagle River, AK
cbHembach@gmail.com

To whom it may concern,

I am writing to voice support for Alice's retail cannabis store, in Eagle River.

For too long there has been black market marijuana sold in Eagle River to whomever had the cash to buy it. No testing, no age requirement, no taxes and no responsibility if anything ever happened to local residents. Why allow black market marijuana dealers to continue selling in our communities? Why deny local residents access to clean, tested, locally grown and locally manufactured marijuana and marijuana products?

Alice's will make a dent in the cannabis black market and also generates tax revenue for the State and for the Municipality of Anchorage, including Eagle River.

Thank you,

Eric Burdick

Resident of Eagle River

To whom it may concern,

I'm writing to you today in support of the proposed marijuana retail store "Alice's."
First and foremost, I applaud these entrepreneurs for attempting to start a marijuana retail store in the Eagle River area and for choosing a discreet business name. I have always wondered why there are no marijuana retail stores in the community and why Eagle River residents are forced to drive to Anchorage or Wasilla to purchase a LEGAL product in Alaska.
I totally understand that some communities have an abundance of retail stores and do not want to see a "Pot Shop" on every corner. That being said, I don't see why Eagle River doesn't even want to entertain the idea of limiting the amount of retail stores. Perhaps a wise solution would be to approve this retail store with the understanding that Eagle River will only allow 1 or 2 stores within the community.
From what I hear, the marijuana industry is the most regulated industry in operation to date. The security plans and requirements are extremely strict, unlike any other business operations within the state.
As I'm sure you are aware, Chris, one of the proposed business owners, is an amazing business owner, community member and human being. Chris' success should be taken into consideration 100%.

Thank you,

Everett Taylor
Eagle River Resident

To both the Alaska Marijuana Board and the Eagle River Community Council,

I am a lifelong Eagle River resident, I one hundred percent support approving the variance to allow a Cannabis Business to open in the Chugiak Eagle River area. It's time to stop stereotyping people that use cannabis as criminal degenerates. As you are aware alcohol is the root cause for FAR more criminal acts than cannabis is and for that reason I support approving the variance to allow a Cannabis Business to open on horseshoe Drive in Eagle River.

Sincerely,

Donna L. Schopp

Hello. As a business owner in Eagle River, Alaska I would love to voice my opinion for the potential marijuana business here in Eagle River.
I am not a current cannabis user nor do I participate in any cannabis related material, however I believe this business has a 100% right to open shop here in Eagle River. Besides the potential benefits to users that use it medicinally and the potential tax benefits to the state I see this community as an open community that believes in fair treatment of people and business's alike.
To exclude this business would be more based on personal bias from individuals than anything else and we don't live in the 1920's anymore (prohibition).
Having an establishment here would also help individuals in the community that are mostly immobile from having to drive all the way to anchorage or palmer/wasilla as legally individuals can only purchase for themselves and not others. One of my own elderly parents falls under this category and has huge neurological conditions that prevent her from being mostly mobile.
Alaska has unsafe driving conditions during the winter as is which makes her ability to be mobile more concerning.
I personally see that if it is denied as almost hypocritical to other business's that have been allowed to open up here in the past (I.E. alcohol business's, smoke shops).
This is just my two cents as a community member named Cliff Cook asked people to send emails to you and voice our opinions. Thank you for your time!

Hello!

My name is Sydney Worley, I am a resident of Eagle River. Recently on community message boards a post has gone out that a business called 'Alice's' wishes to set up shop in Eagle River. It's been said it will be related to marijuana and if we had any comments, questions or concerns to send an email here. (If that's incorrect I apologize for taking some of your time and please disregard this email.) As a new resident who believes deeply in community, I wanted to take a moment to do so.

I support a marijuana inclusive establishment for Eagle River. I believe each person in this community should each be allowed to make our own reasonable decisions, and what my neighbors choose to purchase (or not purchase) does not effect me. I believe in the benefits of medicinal marijuana and support it recreationally. Mostly, though, I read others messages and felt that a stigma is being perpetuated around marijuana that doesn't seem to exist for liquor, guns, or anything else—and shouldn't. So I wanted to take the time to say I welcome the business like its non-marijuana shop bringing opportunity and goods.

Thank you and best regards,

Sydney

I am emailing my support for opening a weed shop in Eagle River for 12111 Horseshoe Drive.

As a homeowner in Eagle River currently dying from my third reoccurrence of a deadly, rare disease, I would like to be able to buy relief closer to home if possible. There are many days when I barely have the ability to get out of bed. Being able to shop locally in Eagle River would reduce some of the fatigue I encounter having to shower and drive into town. I do not foresee Eagle River having more issues because of this store; people already buy marijuana in Anchorage and bring it home. We do not have issues with marijuana crimes here.

To licensing board:

I just wanted to weigh in that my husband and I are in strong support of a dispensary in Eagle River. The substance is legal and far less harmful than alcohol and opioids, which are everywhere. In addition, many people who rely on it for pain and anxiety are elderly, disabled or chronically ill, which makes the commute to obtain it in Anchorage difficult for them. Providing a less harmful option for pain relief and relaxation in these stressful times seems like a good idea.

Thanks,

Vanessa

There is an application an cannibis shop location for this license is 12111 Horseshoe Dr which is in the building behind the USA Fed CU in Eagle River. Keep in mind that Muni code 21.05.055 para c. states that there are setback restrictions as to how close such a facility can be (to code) with other various establishments. In Anchorage that “setback” is 500 feet BUT in Eagle River the “setback” distance is 1000 ft.

If approved it will modify the above and allow for other types of businesses to open that our not in the communities best interest. There are plently of stores in the Anchorage and the Mst Su area for customers to obtain there products.

I vote against the shop opening.

Hello,
Yes, some people feel because mine is more in the personal matter my opinion should account but everyones should. I'm here to speak more on how important it is for it not to be so convenient for our youth to purchase whether it's legal or they purchase it illegal it's already happening. There is an older young person, young adult if you wish that purchases from distilleries in Anchorage or gets it underground and sells it to our underage kids and many of them do reside in the Eagle River area and go to Eagle River high School. I'm sorry I do not know the name of this individual I wish I did it's unfortunate that this is happening in Anchorage and this person moves around from place to place so they won't be found and this comes from my young adult that unfortunately has left the house because it is not allowed in our home. Children from the ages of 13 to 18 are getting hooked and people just don't seem to see the big picture. I understand that people use it for pain cancer and anxiety but many of these people are adults that can drive so I don't see the problem with them driving into Anchorage and getting what they need. A big disgrace or unfortunate event will have to happen for people to get it through their head that it's just not the best idea it is lousy that government wants to control it because they don't make a profit from it I understand that it would help our Eagle River small town, but that's what many of us enjoy about our small town it's not Anchorage ...and why should we NEED to be what we moved out here to be AWAY FROM.

Thank you for your time
M.M.

I vehemently object to the opening of a marijuana store in Eagle River, AK.

Please shut down this request for a license. We don’t want this and it will NOT enhance our town or quality of life.

Jeanne Hatswell

No pot shops in Eagle River!!!!

You know the issues so I won’t go into detail except to say that I don’t want to see them in this town!!

Sincerely-Debra Lathrop

Dear Eagle River Community Council and Alaska marijuana licensing board,

My oncologist husband prescribes marijuana for adults in pain. It has its place- and there are plenty of places in Anchorage to get what is needed.

Why medical marijuana is not dispensed in a pharmacy is beyond my understanding.

Yet for the rest of the population: it is wisdom to learn from the hard, recent history lessons learned by the many states and communities who have gone before us on this path.

-Pot hurts children and youth.

- Easier access to pot increases use.

-Dispensaries attract crime.

-Difficulty in drafting ordinances that adhere to strict environmental standards, increases lawsuits from applicants who aren't awarded licenses, and increases the illegal market.

-Licensed and legal "front door" operations make it difficult for law-enforcement to bust illegal "back door" drug operations.

Read the evidence. The experiences of others is clear.

https://www.wweek.com/news/courts/2021/03/03/for-nearly-a-year-teenagers-have-been-robbing-portland-dispensaries-then-somebody-shot-a-budtender/

Please vote AGAINST inviting these problems into Eagle River.

Sincerely,

Prairie Daugherty

My name is Prairie Daugherty, I am a resident of Eagle River. My husband Larry, and adult children Bailey and Calvin all concur-
4 votes against passing the marijuana variance in Eagle River.

Please add 4 votes of NO on allowing a variance for marijuana businesses to be allowed in Eagle River.

My husband is a Radiation Oncologist who works in Anchorage and does prescribe marijuana to cancer patients. However, we both feel that medical marijuana should be dispensed through a pharmacy.

Marijuana shops, while legal, provide a front operation with approved government paperwork- making it difficult to trace the illegal drug deals that happen through the back door.

I vote to live in and raise my children in a community that chooses not to promulgate marijuana businesses in my community.

Thank you!!

A retail shop in Eagle River, AK 12111 Horseshoe Dr. Suit 1

I am a local resident in Eagle River

- We are already a part of MOA
- There are 10 + shops in Anchorage and one in Girdwood
- Save on having to drive to Anchorage
- Will decrease the black market & opioid dealers here
- Cleaner legal products for personal use
- Will generates more taxes for the STATE & MOA
- Support local business owners

Comments:

I think this would be great for People that use this for medical issues to not to have to go all the way to Anchorage for product. Creats Rev. for the State!

Comments: The opinions of the few people who did not want a dispensary in the ER, chugiak area are valid and heard, However, the fact is the Alaskan people voted to legalize. That legalization needs to be honored and not inambered by the few who are upset with the voters decision. Please reconsider this legislature, and move to allow the shops to exhist.
