Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Anchor Mints		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	24 Months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Anchor Mints are highly compressed powder mints compared in texture to "Ice Breakers Mints". Each mint is roughly 12mm round and 5mm high, with a round convex shape like a standard breath mint. Anchor Mints are produced in multiple flavors and colors such as; Peppermint/White, Wintergreen/Green, Cinnamon/Red
Ingredients:	Sorbitol, Natural Flavoring (Dextrose and Natural Flavors) (flavor depending), Dank Star Distillate, less than 2% each of Magnesium Stearate, Silicon Dioxide. *all flavors are not to be combined at once Cultivated Confections may use a third party concentrate from a licensed marijuana facility in lieu of Dank Star Distillate
Standard Production Procedure and Detailed Manufacturing Process:	Dank Star Distillate is mixed with 190 proof grain alcohol at a ratio of about 1-gram Dank Star Distillate to 2 oz. alcohol. Once mixed well, the mixture is poured into sugar or sugar substitute and mixed again. The mixture is then placed into an oven set to 200 degrees and stirred every 3 minutes until the smell of alcohol dissipates. The induced sugar is then mixed with a flavor extract and mixing agent. The final mixture is loaded into a pill machine to press into the final mint product.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Anchor Mints
Product Type:	Edible Marijuana Product

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Anchor Mints will be packaged in around, child-resistant, metal LocTins. The tins are approximately 3" x 1.1" and requires the use of both hands to press down and turn at the same time to open. The Cultivated Confections logo will appear on the top/front of the tin, with the required labeling will be affixed to the bottom/back of the tin and a card board insert containing flavor, strain etc, (for easy to read purchase option, same information will be on the bottom/back of the package) shrink wrapped to the tin with easy to read required labeling which is designed to fit inside the top/front of the tin. 1 serving= 2 mints (total of 5mg THC) 10 servings per package - 50mg THC total per package with 20 total mints per package.

this image shows the tin only, this is not a depiction of the product

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Alaska Marijuana Control Board

Form MJ-15d: Previously Approved Edible Product THC Limit Change

What is this form?

This form is required for all licensed marijuana manufacturers seeking to add the option of 10 milligrams (mg) per serving/100mg per package to their licensed manufacturing facility's currently approved products' THC content limit as described under 3 AAC 306.560, unless otherwise approved by the board.

The required $250 change fee may be made by check, cashier's check, or money order.

This form is the only required application to solely add the option of 10mg THC per serving/100mg THC per package (individual servings in a package may not be greater than 10 mg) to any of your current approved marijuana edible products. If any other changes are being requested, they must be requested on form MJ-15: Operating Plan Change.

This form must be completed and submitted to AMCO's main office prior to changing THC content in edibles. The licensed manufacturer's production of their currently approved edibles containing THC may not be altered unless and until the director has given approval.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	CC Enterprises, Inc.	MJ License #:		20532	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Cultivated Confections

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable food, safety & sanitation laws.

I affirm the labels remain identical with the exception of a clear indication that the THC amount is 10 mg.

Proposed changes are reflected in packaging/labeling requirements set forth in 3 AAC 306.565 -3 AAC 306.570

I hereby certify that I am the person herein named and subscribing to the information in this document. I declare that all of the information contained herein, and evidence or other documents submitted herewith are true and correct. I understand that it is a Class A misdemeanor under AS 11.56.210 to falsify this document and commit the crime of un-sworn falsification. A person who makes a false statement on this document may be subject to civil and criminal penalties, including prosecution for perjury (AS 11.56.200 & AS 11.56.230).
