Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	CO2 Oil		
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-house)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	CO2 oil will range in color from light amber to dark amber depending on the strain used. The oil's texture will be thick and sticky viscous liquid.
Ingredients: This box is not applicable to marijuana concentrates.	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Using parameters designed for CO2 Oil ground marijuana material is loaded manually into the extraction tube of the CO2 extractor, which is then pressurized. CO2 passes through the material and carries out the cannabinoids, terpenes, plant waxes, and other volatile organic compounds. Pressures and temperatures can be varied to target specific compounds. The vessel is then de-pressurized, the plant material is disposed of and the concentrate is removed from its collection Vessel separated by grade of specific compounds and stored in a chilled area
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	CO2 Oil
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-house)

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Up to 7 grams of CO2 Oil will be packaged into a plastic or glass applicator. The applicator will then be packaged into a mylar bag, box, plastic container, or Blister package. The product's complete packaging will be resealable and child resistant. Retail stores will ensure purchases are in opaque exit bags. The total THC content will range from 05-99% with the actual THC content listed on the label per the testing results.
C02 Oil will also be packaged, up to 5 pounds, in sanitized food-grade containers for wholesale and in-house use with the respective labels and test results.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
