Form MJ-03: Retail Marijuana Store

Section 3 – On-site Consumption

	Yes	No
Do you plan to request approval of the board with your initial application to permit consumption of marijuana or marijuana product in a designated area on the proposed premises?	☐	☒

If "Yes", describe how you ensure that only marijuana or marijuana products that were purchased at your proposed premises are being consumed, per 3 AAC 306.305(a)(4):

NA

Section 4 – Displays and Sales

Describe how marijuana and marijuana products at the retail marijuana store will be displayed and sold:

Marijuana and Marijuana Products will be displayed behind glass display cases in a restricted access area. Once a customer chooses their product for purchase a licensee, employee, or agent of Hollyweed 907 will check for appropriate identification and either weigh appropriate amount of goods for the sale or use pre-weighed and pre-packaged items to provide to the customer. All purchased Marijuana and Marijuana Products will be placed in an opaque, resealable, child-resistant packaging before the customer leaves the store. All products within that purchase will have labeling provided by either the originating licensed cultivation company or Hollyweed 907. The label will include the logo, store name, license number, THC levels (levels provided by a licensed Marijuana Testing Facility), and all warning statements required under 3 AAC 306.345.
All sell-able edibles, concentrates, and flowers will be stored behind the check-out and display counters. Any edibles that require refrigeration will be stored in a refrigerator, also securely placed behind the counter out of reach of the customers. Flower will be sold either pre-packaged or "Deli" style. "Deli" style flower will be displayed in large glass jars (behind the point of sale counter) with batch labeled strains. Employees will take customer orders at the point of sale counter and weigh the flower behind the counter using a certified scale. Once weighed to the desired amount, the employee will register the purchase in the POS system which integrates with METRC, seal the product into a child-resistant, opaque container, and print the packaging label.
