Re: Comment on 3 AAC 306 The Marijuana Control Board proposes to adopt regulation changes in 3 AAC 306 of the Alaska Administrative Code, dealing with trade shows—sample sizes

Dear Honorable Marijuana Control Board Members,

The Marijuana Control Board proposes to adopt regulation changes in 3 AAC 306, dealing with trade shows—sample sizes, We support this proposed change as written. Currently, the regulations allow licensees to transport one sample package of each cannabis product made or sold by the facility to the event for display and up to one ounce of cannabis flower to the event or trade show for display. However, this regulation change would create consistency with the other products that are allowed to be displayed and transported to trade shows. Allowing Alaska cannabis cultivators the ability to highlight their flowers more extensively. Thank you for the opportunity to comment on this regulation.

Respectfully,

On behalf of the AMIA Board of Directors:

Ryan Tunseth
