Mr. Mark, due to the mistake I made filling out my PFD application, it appears I will have to move forward with my appeal. I appreciate your help with this matter. Yes, I would like to continue with my application and will pursue the appeal. Thanks again!

If you wish to do this – since your application is currently reviewed and ready to be deemed complete – we can put your application on the agenda to be heard in front of the board in the July meeting and suggest that the board approve you with delegation. If the board takes this action, this would mean that your application would be approved pending all the standard state agency and local government approvals along with a ruling from the PFD office that deems you a resident.
