TO: Marijuana Control Board

DATE: August 17, 2023

FROM: Jane P. Sawyer,
Program Coordinator

RE: Incomplete License Renewal
10080 Dream Green Farms &
10082 Einstein Labs

AMCO licensing has reviewed 2023/2024 renewal applications 10080 Dream Green Farms (cultivation) owned by DGF Enterprises, Inc. and 10082 Einstein Labs (manufacturing) owned by Einstein Enterprises, Inc.

The applications are incomplete. Justin Roland, one of the owners in AMCO's records, is not the person signing his MJ-20 Renewal Application Certifications form for each of the renewals, Sandra Habermann is signing on his behalf.

AMCO licensing reached out to Justing Roland by phone but were unsuccessful. He was notified at least by email that these renewal applications would be in front of the board at this meeting.

There appears to be issues within the corporations owning these cannabis businesses. Two of them, being that AMCO's records show four persons being owners/shareholders/officers each of the corporation. While Division of Corporation shows that Justin Roland is the sole owner/shareholder/officer of each corporation. AMCO does not have an ownership change application or transfer of license, whichever applies, in the queue for either license/entity.

AMCO's Records	Division of Corporations
DGF Enterprises, Inc. holds license 10080 Justin Roland - 44% shareholder Kenneth Knight - 42% shareholder Sandra Habermann - 14% shareholder Mark Habermann - officer Einstein Enterprises, Inc. holds license 10082 Justin Roland – 44% shareholder Kenneth Knight – 42% shareholder Sandra Habermann – 14% shareholder Mark Habermann – officer	DGF Enterprises, Inc. holds license 10080 Justin Roland 100% shareholder/officer Einstein Enterprises, Inc. holds license 10082 Justin Roland
