Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Enter information for the business seeking to be licensed, as identified on the license application.

Designated Licensee:	Karen Lowry		
Main Phone:	907-987-1010	**Cell Phone:**	
Email:	alaskanblooms@gmail.com		

Received by AMCO 2.8.18

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

Each and every individual wishing to enter the retail store will be required to present an unaltered, valid, government issued, photo identification proving they are at least 21 years of age before even being allowed to enter the retail store. Alaskan Blooms will have security personnel stationed outside the entrance to the retail store lobby and will not allow anyone to pass until their photo identification has been physically examined and age has been verified. Additionally, signage will be prominently posted on the entrance door stating "No One Under 21 Years of Age Allowed".

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

Alaskan Blooms' retail store will be equipped with a 24 hour monitoring alarm system, exterior motion detecting lighting, video surveillance and an armed guard during business hours. There is one customer entrance and one customer exit to better manage ingress and egress. At least one employee will be present behind the point of sale/display counters at all times, ensuring customers do not enter the restricted access area behind the counter. The entrances to the restricted access areas behind the counters will have prominent signage stating that the area is restricted and that the public must be escorted. The door to the office will remain closed and locked at all times with a restricted access area sign posted. Security cameras will be installed throughout the retail store that allow for monitoring of all areas, 24 hours each day including, at a minimum: all entrances and exits, restricted access areas, all windows, every portion of the office, the point of sale area and the exterior of the building to monitor and identify all activity adjacent to the facility.

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

Alaskan Blooms does not anticipate allowing visitors to the restricted access area of the retail store for purposes of tours or any other purpose other than law enforcement, AMCO enforcement, Fire Marshal, Borough officials and others on official business. However, if Alaskan Blooms does have visitors to the restricted access areas, the licensee/management team will ensure adherence to the visitor policy. Visitors will be asked to enter through the customer entrance and present valid, government issued, photo identification proving they are at least 21 years of age upon arrival to the store. Visitors will then be asked to sign into the Alaskan Blooms visitor log indicating their full name, date, time in and out of the facility and the reason for the visit. A visitor's badge will be issued to each visitor to be clearly displayed on their person at all times while present in the restricted access areas. A designated Alaskan Bloom's employee will escort and actively supervise visitor's at a ratio of 5:1 at all times and will also sign the visitor log indicating they were the supervising employee escort. Once the visit has concluded, the visitor must return the visitor badge and exit the premises.

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Alaskan Blooms will use extremely bright bulbs in their exterior lights to ensure the premises and each exterior door (2 exterior doors) and signs are well illuminated and allow surveillance cameras to clearly capture images of any individuals within 20 feet of the retail store. Each light will be positioned to be free from obstruction and will be checked periodically by Alaskan Blooms employees to ensure proper functionality and positioning.

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

Alaskan Blooms will contract with a third party security alarm company to install and continuously monitor the security alarm system. The alarm system will be activated on both exterior doors to monitor for attempted intrusions as well as motion detectors inside the facility (active during non-business hours). When the alarm is triggered, an automatic, electronic notification will be sent to the licensees and law enforcement when necessary.
- Motion detectors will be installed and activated during non-business hours inside the facility to monitor for unauthorized presence.
- Duress and panic switches will be located in easily accessible areas of the retail store (such as under the counter) for use by the licensees, employees and agents of the facility in the event of an dangerous or threatening situation. These devices are silent alarms that will send an electronic alert to the security monitoring center and law enforcement when activated.
-Employees will be trained on all such security devices and Alaskan Blooms internal policies and procedures regarding safety and security of the premises and employees.
Sensors will be installed on both of the exterior doors and on each of the four (4) exterior windows. Each window will also be equipped with a magnetic locking device and a roll down security shutter (similar to a garage door as shown below). When triggered, the door and window sensors will send an automatic, electronic notification to the security company and the licensees when an attempted intrusion is detected and will then contact law enforcement when necessary. Motion detectors will also be installed inside the facility and will be activated during non-business hours to monitor for unauthorized access and will also initiate an electronic notification when triggered.The alarm system will be activated by the last employee to leave the facility each night. In the event of a security breach where local law enforcement is notified via electronic alert from the security alarm system, the licensees, employees and agents of the facility shall cooperate and assist in any way possible. If the facility must be evacuated, a designated employee, who has been trained for such instances, will assist other employees, and any visitors or other agents of the facility to evacuate to a safe location. Once the facility has been deemed safe and clear by law enforcement, licensees and management shall take inventory of marijuana, cash and equipment and cross reference with METRC. Any event that involves local law enforcement to the facility will be reported to AMCO Enforcement as soon as practicable.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

All areas of the licensed premises where marijuana or marijuana products are stocked for sale, dispensed for sale and storage/inventory areas will be designated as restricted access areas. Access is granted only to specific personnel to these restricted areas. These secured areas will have 24 hour video surveillance and video back up for all video footage and will be stored for a minimum of forty (40) days. When the business is open, all products will be on display in restricted access areas, unreachable to customers. Cameras will be visible and provide a full view of the room, including the entryway, money counting area, and product accounting area. Security monitors and video recording equipment will be located in the secured office. Mandatory inventory counts will be taken weekly and stored as official business records. Alaskan Blooms, LLC understands that diversion can happen in two ways - inversion and diversion - and is equally profitable diverting product out of the legal system as it is diverting product from the illegal system into the legal market. In the event that theft or diversion is suspected, employees will be trained and encouraged to alert management immediately. In the event that an employee is caught stealing marijuana, OR infusing the facility with non-regulated black market product, Alaskan Blooms, LLC will notify local law enforcement immediately, comply with all directives, and provide all necessary information and records for the investigation. The licensee's will take the necessary steps to ensure that illegal conduct by an employee does not compromise the facility's license and legitimate business operations which is why a zero tolerance policy will be implemented and strictly adhered to. All employees will be trained to recognize potential theft, and are required to notify ownership or management if they suspect such activity is occurring. All reports and documentation concerning a suspected or actual theft will be maintained by the company for five (5) years and made available to AMCO and AMCO Enforcement upon request. If any suspected or actual theft occurs, ownership will contact local law enforcement immediately. Once a theft is reported to law enforcement, ownership will update the product records in the marijuana inventory control tracking system to maintain an accurate and comprehensive accounting for all marijuana inventory activity.

3.7. Describe your policies and procedures for preventing loitering:

Signage stating "No Loitering" and that the premises is under video surveillance will be prominently posted around the facility. Designated Alaskan Blooms personnel will be trained to perform routine, but unscheduled patrols of the premises to check for loitering individuals. Individuals found to be loitering on the premises will be met with a verbal request to exit the premises per the no loitering policy and if they do not comply law enforcement will be contacted for back up.
Additionally, an armed security guard will be stationed outside the customer entry door during business hours to help deter criminal activity.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use.

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

(Additional Space as Needed):

Example of roll down security shutters

Received by AMCO 2.8.18

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility.

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image.

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application.

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board).

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

Cameras will be strategically placed in and around the retail store for constant surveillance of the entire licensed premises. Alaskan Blooms will ensure that cameras are positioned in such a way to capture a clear view of individuals within 20 feet of any exterior entry point, there are 2 exterior doors. Positioning of cameras will be high enough to prevent common obstructions and to view all individuals within the store. Exterior cameras will be equipped with infrared technology to facilitate surveillance during dark hours. A failure notification system will provide audible and visual notification of any failure in the surveillance system so that it can be quickly resolved as well as a battery backup for emergency power during a power outage.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

The video recording equipment will be in a locked box within the secured office, accessible only to licensees and management. The office will remain locked at all times with a commercial grade lock, key pad or electronic FOB. Access will be limited and controlled by the licensees. Recordings and surveillance data will be made available to AMCO Enforcement or local Law Enforcement officials upon request.

Received by AMCO 2.8.18

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises: Initials

a. **all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years** *(records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises)*; [initials]

b. **a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;** [initials]

c. **the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;** [initials]

d. **records related to advertising and marketing;** [initials]

e. **a current diagram of the licensed premises, including each restricted access area;** [initials]

f. **a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;** [initials]

g. **all records normally retained for tax purposes;** [initials]

h. **accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;** [initials]

i. **transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and** [initials]

j. **registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.** [initials]

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

All business records will be stored on-site in the secured office. The records will be stored in in a locked cabinet within the locked and secure office. The door to the office will remain locked at all times and access will be restricted to the licensees and authorized managers only. Alaskan Blooms will take measures to prevent the lost or destruction of business records by duplicating all electronic and paper records on a regular basis. Records for at least the last 6 months will always be stored on the licensed premises with back-ups and older records stored on the cloud and/or at an off-site location.

Received by AMCO 2.8.18

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc.

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745.

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745.

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. A marijuana establishment and each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. Each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment.

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises.

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired.

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

Qualified candidates will be hired on a probationary period during which time they will receive training and evaluation specific to their position. Training will include marijuana industry topics; customer care, food handling, safety precautions and procedures; legal issues; and state, local, and federal regulations. Training will take place throughout the year, as well as when topics arise that need further explanation. Ownership will personally present training and education to employees. Within the probationary period, all new employees will be required to meet with Ownership to learn the company's business approach and to adopt the standard of service. Educational packets will be provided to each retail employee to be read and review. The educational packets will discuss relevant cannabinoids in the marijuana plant, strain ratios, marijuana benefits and risks, and general Alaska marijuana law. Packets will also include safety procedures that specifically address the facility's security measures and controls for the prevention of diversion, theft, and loss of marijuana such as emergency response procedures and state and federal statutes regarding confidentiality. As proper safety and security procedures are of the utmost importance to Ownership, the most up-to-date reading materials will be available to employees at all times. Management will conduct quarterly staff meetings with the purpose of updating all employees on new state and local regulations, assuring that each employee is performing within company procedure, assessing any procedural changes that are needed, and addressing any comments or concerns from the staff. Prior to beginning work, employees will be expected to understand: (1) Alaska laws, regulations, and codes governing the marijuana industry and marijuana establishments; (2) all of the permitting requirements to act as a marijuana handler (including obtaining a Marijuana Handler card from a state approved course provider prior to commencing employment) and to work in a marijuana establishment; (3) Alaskan Blooms standards, operational protocol, and best practices with regard to retail and sale of marijuana; (4) general safety procedures and security protocol; (5) how to think defensively if threatening situations occur, and how to recognize the signs of impairment, drug abuse, and instability; (6) in-depth information about our particular strains and marijuana related products; (7) in-depth information on the requirements of each room, task, and system; (8) the general federal, state, and local employment regulations by which Alaskan Blooms, is governed; and (9) retail-specific education. To ensure full coverage for each position, all employees will be cross-trained on the requirements of each job. Employees will also be required to attend a general security class taught by the hired security company. Alaskan Blooms, will encourage staff to attend seminars, conferences, and workshops, and Management will maintain a library of resources on marijuana topics, available to employees at all times. The state and local marijuana regulations and laws will be posted in the facility for reference. All new hires will be required to meet with Ownership to go over employment documents, specific tasks, educational materials, facility features, security, position-specific training, and to receive their uniform and supplies.

Received by AMCO 2.8.18

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present. [KM]

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded. [KM]

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace. [KM]

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d). [KM]

Answer "Yes" or "No" to each of the following questions:	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	✔	☐
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	✔	☐

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

For all shipments of products, Alaskan Blooms will create a METRC generated Trip Manifest. All Trip Manifests will be sent with the products, and an additional copy will be stored and filed as an official business record. The Manifest documents clearly have the strain name, type of product, batch number, weight, name of the transporter and handlers ID, time of departure and expected delivery, and the make, model, and license plate of the transporting vehicle. All marijuana product will be in a sealed package or container not exceeding five (5) pounds and then stored in a locked storage compartment within the transport vehicle. The transport vehicle will travel directly between destinations without making any unnecessary stops and at no time during transit will marijuana products be directly visible. All marijuana packaging will have a label stating that a licensed testing facility has tested each batch in the shipment. All packaging materials sold to marijuana establishments for sale to consumers will be child-resistant and unappealing to children. Any packaging done at the retail store will be performed in a specific 24 hour surveillance monitored area and will then be packaged in a uniform manner with labels secure and clearly displayed. Packaged marijuana will be stored in a secured area until ready for display or transport, and will be inspected, accepted or rejected, and recorded in an official log. The management team will check all packages to make sure that they will keep all marijuana from contamination and will check to make sure that the packages will not impart any toxic or deleterious substance to the marijuana or marijuana products. Alaskan Blooms will use certified scales in compliance with the Alaska Weights and Measures Act, and will maintain registration and inspection reports at the store which are available to AMCO at its request. All usable marijuana sold to any marijuana establishment will be labeled with the following information: (1) the name and license number of the cultivation facility and/or manufacturing facility; (2) the date the marijuana was harvested; (3) the harvest batch or lot number assigned to the marijuana; (4) the date the marijuana was packaged; (5) the net weight and the quantity of usable marijuana packaged in a standard of measure compatible with the inventory tracking system; (6) a complete list of all pesticides, fungicides, and herbicides used in the cultivation and preparation of the marijuana; and (7) the date of expiration if perishable; (8) testing results & date tested; and (9) required warnings (if packaged for retail sale). A label must be affixed to all shipping containers showing that a licensed marijuana testing facility has tested each harvest batch/lot in the shipment . The label will list: (1) the date of final testing; (2) the cannabinoid potency profile, expressed as a range of percentages (3) a statement listing the results of microbial testing; (4) a statement listing the results of residual solvent testing, as applicable; and (5) a statement listing the contaminants for which the product was tested per the requirements found in 3 AAC 306.475(e)(4). *Continued on the following page

Received by AMCO 2.8.18

(Additional Space as Needed):

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of
the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

Vehicles that will be used for transportation of marijuana and/or products will contain a secure and sanitary area affixed to the inside of the transportation vehicle that will lock and will ensure the marijuana product cannot be seen by anyone from outside of the transportation vehicle. Any vehicle transporting marijuana products will be unmarked and inconspicuous. Prior to departure, the manager will ensure all marijuana is in sealed packages, and locked in the safe and secure storage compartment in the transport vehicle. All employees will be trained and will understand that under no circumstances (absent instruction from a duly authorized law enforcement officer) shall a sealed package containing marijuana be opened during transportation. The vehicle storage box will be a large rectangular industrial box made of hard plastic or metal.
Alaskan Blooms may contract with a third party transport company and will ensure they have their marijuana handler permits and that their procedures are regulatory compliant.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700.

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle.

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport.

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport.

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment.

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received.

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest.

Section 9 – Signage and Advertising

9.1. Describe any signs that you intend to post on your establishment with your business name, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

Alaskan Blooms will post three signs on the retail store licensed premises with their business name and logo. Each sign will be no more than 4800 square inches.
The signs will be attached to the building and in the store window.

Received by AMCO 2.8.18

9.2. Describe any advertising you intend to distribute of your establishment. Include medium types and business logos (photos or drawings may be attached):

Alaskan Blooms' retail advertising and marketing is still in development; however, the company plans to utilize the following medium types when distributing advertisements:

- Newspaper ads
- radio ads
- social media to feature specific strains
- magazine ads

Advertisements will include the following logo, the retail store hours and location, and will include each warning statement verbatim as they are listed in the regulations.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
