Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Why is this form needed?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's Anchorage office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Denali Fire Brown LLC	**MJ License #:**	14619		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Denali Fire Extracts				
Premises Address:	6209 Mike St., Ste. 2B				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99518

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Denali Fire Extracts is seeking approval to add nicotine oil as an option, during production of the following previously approved products.
Denali Fire RSO, Denali Fire Rosin, FECO Distillate, JPODS, Live Resin Distillate, Loud Resin Distillate, and Distillate.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws.

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk.

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Denali Fire Rosin		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 (one) Year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Rosin has a gooey and silky consistency and ranges in color from yellow to light brown. Its sticky and oily in nature and can have a hard or soft consistency, depending on the strain. Used for inhalation. It comes in a variety of strains and THC/CBD levels.
Ingredients:	N/A - Marijuana Concentrate
Standard Production Procedure and Detailed Manufacturing Process:	Rosin is created from dried/cured plant material that undergoes pressure & heat to vaporize volatile liquid terpenes, with an industrial heat press. After pressing, the product is placed in a freezer until cool and solid. Expiration date is one (1) year. The rosin may also be further processed with the use of a vacuum oven under specified conditions to create a rosin product that can be put into cartridges for vaping. Licensee may also opt to add nicotine oil to the concentrate during the production process. Licensee may also opt to add liquid nicotine, from a certified U.S wholesaler, to the concentrate during the production process for vape carts only. Licensee holds a valid tobacco endorsement.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 
Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Denali Fire Rosin
Product Type:	Marijuana Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Packaging options consist of non-toxic, opaque, black or white mylar/blister pack with an optional clear front/back to show the product, as well as black tamper-evident, child-resistant company-branded boxes with clear small windows to show the product. Bags/Packs range from 3"x4" to 4"x5" (not to be repackaged). The designated amount of product will be packaged in a small glass/acrylic screw top container and then placed in the packaging. Containers will hold a maximum of 1gram of product. Further processed rosin (as previously described) will be packaged in vape cartridges and then placed in the packaging. Cartridges will be plastic or glass and 0.3ml - 1.0ml in size. Total THC per product will range from 40-99%. *To be placed into exit packaging in compliance with 3 AAC 306.345(a)(3) by the retailer* If optional liquid nicotine is added, ml of nicotine will be indicated on the product label and will meet FDA regulations.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Produced By: Denali Fire Extracts License Number: 14619 Product Name: **Denali Fire Rosin** Batch/Lot Number: Gross Weight: Net MJ Weight: Packaging Date: Best By Date: Strain: Tested By: License Number: Total THC: THCA: Microbial Test: CBD: CBDA: CBN: Residual Solvent Test Results: Contaminants Test Results: Retailer: License Number: **Alaska Safety Warning**: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding. **Ingredients**: Cannabis Concentrate. *For Best results: Keep refrigerated, not returnable after 24 hours, if used, or altered in any way.* **Denali Fire Extracts | 6209 Mike St Ste 2B | Anchorage, AK 99518 | info@denalifire.com**

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Denali Fire RSO		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 (one) Year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	RSO (Rick Simpson Oil) is oil extracted from cannabis vegetative matter and then post-processed through short path distillation. Color ranges from transparent to yellow and has a gooey and smooth consistency, similar to honey. The product is sticky and oily in nature, and forms to the container it resides in. Distillate is produced from a variety of strains and ranges of THC/CBD levels. Distillate is used for inhalation and vaping.
Ingredients:	N/A - Marijuana Concentrate
Standard Production Procedure and Detailed Manufacturing Process:	RSO is produced by extraction and distillation of the cannabis vegetative material. The vegetative matter is initially processed through a closed loop cold ethanol extractor and the collected concentrate is then post processed and distilled through a short-path Distiller. The distillate is then mixed with food grade flavoring, MCT oil, flavored Alcohols and packaged. Expiration date is one (1) year. Licensee may also opt to add liquid nicotine, from a certified U.S wholesaler, to the concentrate during the production process for vape carts only. Licensee holds a valid tobacco endorsement.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels
