I received 7 emails with attachments. I have not looked at them and I probably won't until next week. This week is a short week for our office, we only work until Wednesday.

As for the re-posting and re-notifying the public notice, there is no way around it, you do have to re-post the Public Notice that must have the unit number and re-notify the local government as requested.

MJ-07 and MJ-08 is an affidavit where you certify that a copy of the application has been posted at the location of the proposed premises, and have given a copy of the application to the local government (MJ-07 and MJ-08 respectively), to just add a unit number to the forms without having done what it is required is inappropriate. The MJ-07 and MJ-08 you submitted within the 7 emails will not be accepted. Your application in essence changed (by having to add a unit number) so you have to comply with the public notice requirement.

The MJ-07 and MJ-08 you submitted within the 7 emails you just sent will not be accepted.

Thank you

Jane,

Regarding MJ-07 and re-posting the public notice, I have included time stamped pictures that I took of the postings at all three locations. I understand that I missed putting the unit letter on the premises address, however I strongly feel that it was still clear to the people where the facility was going to be opening up. Due to the fact that we've also been through the town meeting, no one showed up to the meeting to object and the facility was approved, therefore the city and the people have given me consent to move forward, I respectfully request that this correction be waived/rescinded in order to prevent any further costly delays or difficulties.

I greatly appreciate your time and consideration on this matter.
