Darren,

I've gone through your corrections.

Couple more things:

The correction to page 15 of MJ-01 does not have the questions on top of the boxes, I attached it here if you want to look at it. I need that page to show the questions.

Also, in this email I attached the MJ-02 I put together from all the diagrams and different versions thereof you submitted. It needs more corrections:

- on the 1st and 2nd floor diagrams with the blue outline that equals the licensed premises, will you also add "…and restricted access area". The blue outline should mean licensed premises and restricted access area.
- I forgot to ask you: please draw the interior layout of the flower rooms and veg room.
- The second to the last page of the MJ-02 document: that red outline that says "Licensed Premises", shrink it down to the perimeter of the building, AND add "….and restricted access area".

Remember, this emails does not extend the 90-day deadline to get this application deemed complete by our office. If you want this application to be in the January meeting, the application needs to be deemed complete by 1/5/18.

Call me if you want so we are going back and forth over email.

Thank you
Jane Sawyer
