Subject:	Follow up on corrections received 11.18.17-Fiberflite license #13577 *Still Incomplete*
Date:	Monday, December 04, 2017 2:28:00 PM

Darren,

I reviewed the corrections received. Little more work needs to be done, this time if possible only send me the pages that need corrections for MJ-01, I need full pages, but they can be only the ones that need corrections:

- MJ-01, page 2, first box: the narrative of the restricted access area(s) within the facility has to change a little bit and make it match the diagram. In a cultivation facility, essentially the entire facility has to be designated restricted access area and licensed premises, the few exceptions is, for example you have a "waiting area" upon entering the facility where you log the visitors before entering the restricted access area (the rest of the facility), or the bathroom. ALSO, you talk about two exteriors doors in this same box, show these two exterior doors in the diagram. **If this is confusing, call me.**
- MJ-01, page 4, second box: expand upon your answer to this box and describe who will do what in the event the siren goes off. Does it alert anyone? Whom? Steps to take?.
- MJ-01, page 5, first box: expand upon your answer to this box and describe how your establishment will prevent diversion by employees.
- Page 15, first box: expand upon your answer to this box and explain whether you will be selling to retail marijuana store in wholesale or pre-packaged for direct sale to consumer, and how you will comply with the regulations. Attach a separate page 19 if you need to with your continued answer.

- MJ-02: little more info for the diagrams (call me if you need clarification):
    - Please provide a site plan map that shows the premises and what surrounds that area, I see the one you submitted and it shows the other units. However, the board has been asking for more detail on these to show what surrounds the property, and streets, and other business, and what not.
    - On one of your aerial view diagrams, the red line depicts the proposed licensed premises, but it actually goes over the perimeter of the building, so I think you are a little confused.
    - Will you please label the entrances on the diagram
    - Change the diagrams to show that the licensed premises and restricted access area(s) is one in the same (use the same color for both). Call me, it will probably be a little easier and faster.

This email does not extend the 90-day deadline you have to get this

application deemed complete by our office or you would need to start over from scratch, that deadline is 2/6/18.

The deadline to get this application deemed complete by our office if you want to be on the January meeting is 1/5/18.

Thank you
Jane Sawyer

Ok, thank you. I have two quick questions; Are you able to tell me if you think I will make it onto the next board meeting agenda!? And when exactly does my 90 days start?

Thanks. You won't hear from me until next week.

Jane
