Alaska Marijuana Control Board

Form MJ-20: 2025-2026 Renewal Application Certifications

Why is this form needed?

RECEIVED
JUN 25 2025
Dept. of Commerce
AMCO

This renewal application certifications form is required for all marijuana establishment license renewal applications. Each person signing an application for a marijuana establishment license must declare that he/she has read and is familiar with AS 17.38 and 3 AAC 306. A person other than a licensee may not have direct or indirect financial interest (as defined in 3 AAC 306.015(e)(1)) in the business for which a marijuana establishment license is issued, per 3 AAC 306.015(a).

This form must be completed and submitted to AMCO's Anchorage office by each licensee (as defined in 3 AAC 306.020(b)(2)) before any license renewal application will be considered complete.

Section 1 – Establishment Information

Enter information for the licensed establishment, as identified on the license application.

Licensee:	High Society Laboratory	**License Number:**	29879		
License Type:	Marijuana Concentrate Manufacturing				
Doing Business As:	High Society Laboratory				
Premises Address:	11745 E Weathervane Circle				
City:	Palmer	**State:**	AK	**ZIP:**	99645

Section 2 – Individual Information

Enter information for the individual licensee who is completing this form.

Name:	Lacey Rego
Title:	Owner

Section 3 – Violations & Charges

Read each line below, and then sign your initials in the box to the right of any applicable statements:	Initials
I certify that I have **not** been convicted of any criminal charge in the previous two calendar years.	LR
I certify that I have **not** committed any civil violation of AS 04, AS 17.38, or 3 AAC 306 in the previous two calendar years.	LR
I certify that a notice of violation has **not** been issued for this license between July 1, 2024, and June 30, 2025.	

Sign your initials to the following statement only if you are unable to certify one or more of the above statements:	Initials
I have attached a written explanation for why I cannot certify one or more of the above statements, which includes the type of violation or offense, as required under 3 AAC 306.035(b).	LR

Form MJ-20: 2025-2026 Renewal Application Certifications

Section 5 – Certifications

Read each line below, and then sign your initials in the box to the right of each statement: Initials

I certify that no person other than a licensee listed on my marijuana establishment license renewal application has a direct or indirect financial interest, as defined in 3 AAC 306.015(e)(1), in the business for which the marijuana establishment license has been issued. LR

I certify that I meet the residency requirement under AS 43.23 or I have submitted a residency exception affidavit (MJ-20a) along with this application. LR

I certify that this establishment complies with any applicable health, fire, safety, or tax statute, ordinance, regulation, or other law in the state. LR

I certify that the license is operated in accordance with the operating plan currently approved by the Marijuana Control Board. LR

I certify that I am operating in compliance with the Alaska Department of Labor and Workforce Development's laws and requirements pertaining to employees. LR

I certify that I have not violated any restrictions pertaining to this particular license type, and that this license has not been operated in violation of a condition or restriction imposed by the Marijuana Control Board. LR

Initial this box if you are submitting an original fingerprint card and the applicable fees to AMCO for AMCO to obtain criminal justice information and a national criminal history record required by AS 17.38.200 and 3 AAC 306.035(d). If I have multiple marijuana licenses being renewed, I understand one fingerprint card and fee will suffice for all marijuana licenses being renewed. ☐

If multiple licenses are held, list all license numbers below:

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification. LR

	Date	Violation of	Fine	Date	Violation of	Fine
Prior Violation(s)						

This is a notice to you as a licensee that you are being issued a notice of violation for the purposes described in 3 AAC 306.806(e). A description of the violation is as follows,
NOTE: This is not an accusation or criminal complaint.

On July 12/2024 Investigator Linger was conducting routine follow up on a complaint regarding High Society Laboratory, License #29879. The complaint stated there had been an explosion in May 2024 and a fire in June 2024 at High Society Laboratory located at 6514 N Farm Loop Rd Bldg #2, in Palmer. The complaint also stated there was product removed from the licensed premise. Inv. Linger went to the location and spoke to Travis Webb, the son of licensee Robert Webb, who stated there was an explosion of their equipment in May which the fire department responded to. Webb stated there was also a fire in June that the fire department responded too. I inspected the facility and saw the entire inside of the building covered in black soot consistent with a fire, as well as an area next to a small chest freezer that had extensive fire damage to the floor which could be seen through. When asked why the incidents were never reported Webb didn't know. I photographed the building inside and out. Webb stated the two partners, Kristerfer Byers and Lacey Rego, took product and equipment from the building (license #29879) and moved it to Byers unaffiliated licensed location and was producing and selling from there (license #13659).

I went to 11740 E Weathervane Circle Shop, in Palmer (License #13659, which is a Limited Marijuana Cultivation owned by Kristerfer "Kris" Byers). Byers stated he had product from the other location and wanted to return it to the licensee's it belonged to. Byers stated it was in a locked secure location, and when asked to see it he stated it wasn't actually locked up. Byers was cooperative and honest about the product and took me into his home (not part of the licensed facility) and showed me the product sitting unsecured on the dinning room table (i took a photo of the product). Byers stated the product didn't have a manifest when it was removed from the original facility to his home in June 2024, just after the fire. I asked how he intended to return it without a manifest and he stated he was trying to figure out what to do. Kris stated approximately 220 gr of product had already been returned to Bad Grammer, and 175 gr to Hatcher Grass. I checked with Bad Grammer and Hatcher Grass, both had manifests created in METRC that were dated on July 12, 2024, in which the product was moved from his home (11740 E Weathervane Cir Shop, Palmer, AK), not the licensed facility which is the address on the manifest, 6514 N. Farm Loop Rd. Bldg. #2, Palmer, AK). Both manifests were falsified showing the product coming from one location, the licensed facility, when it in fact came from a different location which is not a licensed facility. The remainder of the product has been secured inside the licensed premise #13659 at my direction until a determination can be made what to do with it. This is in violation of the below referenced Administrative Codes.

3 AAC 306.505(a)(9). Marijuana product manufacturing facility privileges
(a) Except as provided in 3 AAC 306.515, a licensed marijuana product manufacturing facility is authorized to (9) store inventory in a restricted access area on the licensed premises as provided in 3 AAC 306.535

3 AAC 306.535(b)(3). Restricted access and storage areas

Notice of Violation

Disciplinary Action

Civil Fine:		**Probation:**	

You may choose to contest or not contest the violation or recommended disciplinary action. If you do not contest, please describe in writing the remedial measures you are taking to address the violation and remit the requested fine, if applicable You may contest the violation or recommended disciplinary action by filing a written response not later than 10 days after your receipt of this notice. You may elect to appeal this notice directly to the Marijuana Control Board under 3 AAC 306.845 or request an informal conference with the director under 3 AAC 306.844. if your informal conference with the director is not to your satisfaction, you may still elect to appeal this notice to the board by filing written notice of the same with AMCO. Any appeal to the board will be heard at the next regularly scheduled meeting of the Board, unless both AMCO and you agree to an extension. You may appeal any final decision by the board to the superior court under AS 44.62.560, excluding a request that the director prepare an accusation for suspension or revocation of a license.

Please send your response, including any potential fine, your request for an informal conference, or appeal to the board to the address below and include your marijuana license number in your response.

Subject: Response to NOV (Case #AM 24-1570)

Categories:

Dear AMCO Enforcement:

This message is a response to the NOV issued in AMCO Case # AM-24-1570.

As explained in the NOV, our concentrate manufacturing facility (Lic. # 29879) sustained an explosion in May 2024 and a fire in June 2024. The May explosion caused some damage and stress, and led to additional expenses, but we were able to continue operating. The result of the fire was more severe, and the facility was no longer operational. After the fire we struggled with how to regroup and proceed following such a disaster.

As further noted in the NOV, the facility was covered in soot and there was extensive fire damage. Consequently, almost all of the marijuana plant material and concentrate located in the facility was destroyed or damaged to the point that it was not usable. The only inventory that survived was approximately 675 grams of concentrate that was already earmarked to be delivered to Bad Grammer (220g) and Hatcher Grass (175g) pursuant to previous agreements. Of that 675g total, 395 grams was packaged for resale at the licensed premises before the fire and was kept in a small refrigerator, which is how it survived the fire. We did not have enough packaging material to package the remaining 280 grams, so it was stored in the oven while we waited for a delivery of packaging material, and it remained in there during the fire, so it was not affected.

After the fire the prepackaged 395 grams of product and the other 280 grams was transferred to Kris Byers' home, which is not a licensed facility, for storage while we contemplated our next steps. After that, the 395 grams that was pre-packaged for resale was later transported to Bad Grammer and Hatcher Grass. The remaining 280 grams was intended to be sent to Bad Grammer once we received additional packaging materials. That 280g is currently under administrative hold.

We were shaken up and made poor decisions in the aftermath of the fire. We acknowledge that the transfer of the 675 grams of marijuana concentrate from the damaged licensed facility to Mr. Byers' home, and the transfer of the 395 grams from his home to Bad Grammer and Hatcher Grass, did not comply with AMCO regulations regarding the tracking, storage, and transportation of marijuana concentrate. Our only excuse is that this was a stressful and very difficult time, we were under duress, and made poor decisions. We should have contacted AMCO for guidance immediately upon realizing that the facility was not operational and that the surviving inventory would need to be transferred. However, there was no intent to violate the regulations or divert product, and all of the inventory that was removed from the facility is accounted for, as we were holding it in order to eventually transfer it to Bad Grammer, pursuant to its pre-existing agreement. We regret the decisions we made and now recognize these serious errors.

Due to the circumstances involved, and because this is the first NOV received for this license, we request that no further action be taken with respect to this NOV. We further request that the product at issue remain on administrative hold status until the facility is operational again, at which time the hold would be released so that we could transfer the remaining product back to the facility. We would then resubmit it for testing before transferring it to a retail store.

We appreciate your consideration of this request.

Sincerely,

Kristerfer Byers and Lacey Rego, on behalf of High Society Laboratory
