Attached are the corrected documents and additional documentation per Mr. Baileys Incomplete application letter on 21 December 2017. In terms of Member Grant Andersons Residency, his was put into question when he left the US Army in 2016. It is common for the PFD office to request documentation when this happens. The documentation has been provided and the issue has been resolved up as of 26 December 2017 per the PFD office. At no time has Grant Anderson ceased to be a resident of Alaska. If you have any further questions please let me now and thank you.
