Carol,

I reviewed your corrected application. Few more minor details needed, this time I only need the pages that need correction not the entire document, but if it is easier for you to send the entire thing I will just extract the pages I need:

- MJ-01- on page 3, the name of the business on the identification is missing an “n” on “Alaska”.
- MJ-01- page 4, third box, will you please just add to this box that you will also have the alarm activated on exterior door.
- MJ-01- pages 12 & 13, will you please replace the word “shred” with “grind”. The waste is supposed to be ground.
- MJ-01- page 15, first box, second paragraph, (2), you talk about affixing a label that complies with 3 AAC 306.570(d) but this regulation is for manufacturing, can you double check that and correct accordingly.

- MJ-02- with your new sort of aerial view diagram, I now have a couple

more questions. The blue line depicts your proposed licensed premises, which is fine, however, is this a fence that you have or will have up when the time comes for an inspection? Because if you are not intending to have a fence that physically separates the licensed premises then you need to modify your diagram. If the blue line is supposed to show what Alaskan Bud Company, LLC is leasing, that's fine too, just relabel it. If the cabin will be both the licensed premises and restricted access area then just make it clear, on the aerial view and the layout diagram (**call me if you need clarification, most people have a hard time understanding what we need here).**

- Lease- the name of the landlord on the lease is Carol S Schwietert but the person singing is Carol S Bolt. Why the discrepancy?. Corrections to the lease must be initialed by all parties.

Please, get these corrections done and in to me by tomorrow, your deadline to get this application deemed complete by our office is 12/1/17, we don't have very much time before you will have to start over.

Thank you
