Re: AlaskaSense, LLC License 10237 – NOV AM25-0460

Dear MCB and Enforcement Team:

This letter is in response to the *Notice of Violation* (NOV), dated April 28th, 2025, regarding odor under 3 AAC 306.806(e) and 3 AAC 306.430(c)(2).

During the time frame of the date April 17th, 2025, a contractor was in the process of completing the described Interim Fix needed to address odor mitigation issues caused by the October 2024 vandalism. The Municipal Building Department had approved these upgrades/improvements for the company on April 22nd, 2025. These interim fixes being made include redesigning the ducting configuration, incorporation of twenty-two (22) new carbon filters (four were additional to the number of filters already in the facility, and the remainder were to replace the existing filters), incorporation of four (4) new inline fans, installation of four (4) additional air box units with speed control, and installation of an additional blower fan. Without this maintenance, the facility would be dealing with inefficient and out-of-date equipment, which would increase the amount of odor emitted.

AlaskaSense takes the issue of odor control very seriously and assures that steps are taken to maximize the facility's ability to prevent odor emission. The listed repairs that were completed showcase this. The odor emitted on the day of the complaint was likely present due to all of the repairs being made. AlaskaSense will continue to implement strict odor control procedures and ensure proper maintenance is conducted throughout the building in order to prevent any future complaints of odor from occurring. The $150 fine has been submitted on April 30th, 2025 to AMCO for this complaint.

Please feel free to contact me if you have any questions or concerns regarding this response.

Truly and Sincerely Yours,

Jana D. Weltzin, *Esq.*
