September 5, 2024

Dear AMCO,

On September 3rd 2024 one of your representatives, Special investigator Joe Linger arrived on site at Alaska Legacy Genetics, located at 3097 S. Sylvan Lane, Wasilla, AK. A surprise inspection was performed on our facility and multiple tag violations were found. Our only excuse is that we have been a man short with the duties of the cultivation due to our missing employee who has been battling cancer for a while now and unfortunately just in the last couple of weeks has been put into Hospice.

We understand that this is not an excuse to let things go regarding the cultivation, but the lack of help and expecting one person to handle the whole cultivation we realize now was not a feasible option.

Since Officer Linger's visit we have rectified the plant tag situation and have hired another worker to help with the organization and care of the cultivation. In addition to the regular entering of Metrc information into the computer at the time of any changes, we will be performing a monthly walk-through mandatory audit for all plant tags or changes that occur to insure that our Metrc information is matching the actual physical location that is in Metrc.

We humbly request that you take the above information in to account when deciding your course of action.

Thank you for your time and if you have any questions please contact us at (360)292-3280 or you can email us at algunlimited1@gmail.com

Thank you,

Ryan McKay
