---

Good morning, Whitney,

Not quite complete yet, call me if you need to.

I am sending in this email the documents that still need to be completed, don't worry about the titles for MJ-01 & MJ-04, they are titled that way for my purpose, do not change anything to these documents (send corrections separately) I am sending them so you see what I have an we are on the same page. Again, this email does not extend the 90-day deadline to get this application deemed complete, and the deadline for the meeting in January is 1/5/18.

Okay. The MJ-00's and MJ-09's, if you open them up you will see that it has only one of the proposed licensee's name. This happens a lot when you are trying to combine fillable PDFs, what you will need to do once you have filled out the each of the PDFs is that you will need to save them as non-fillable separately, then combine them (I took the liberty to remove the SSN to transmit them back to you). ALSO, I believe there was a box not marked on MJ-00, just make sure everything is filled out when resending.

For MJ-01 and MJ-04, the waste disposal methods are still not quite complete. I want to make sure that it is clear to the proposed licensee(s) that the solid marijuana waste, regardless of what the final destination is, needs to be stored during the three-day, what I call, waiting period. The answers to page 12 on MJ-01 and consequently page 4 of MJ-04 do not quite show that that is understood.

For the facility diagram I have for MJ-02, and MJ-01, and MJ-04, things change while I go back and forth with applicants and so what I need now for these diagrams is to not have the cameras, I need everything else except the cameras. Will you please send a diagram that shows everything already previously requested except for the cameras.

Finally, please do let me know as soon as Brandon files for PFD, at this point I can't say whether filing for PFD will be faster or easier than the review of MJ-18 by enforcement (I have forward it to them).

Thank you
Jane Sawyer

Importance: High

Thank you Jane, (for the quick turnaround)...

Please find attached the corrected documents. The first two bullet points were a complete "blonde moment" on my part! Please let me know if you need anything else. Brandon Ross will be applying for the PFD January 1, 2018...will that help us out? Would you like us to email you the confirmation when he has completed the process?

Thank you again for your time! Have a very Merry Christmas and a Happy New Year!

Good morning,

I reviewed your corrections. Some more work to do, which I will outline below, but first I just want to let you know that this email does not extend the 90-day deadline you have to get this application deemed complete by

AMCO director; that deadline is 2/7/18.

On the other hand, if you want this application to be on the agenda for the January meeting, the application must be deemed complete by 1/5/18, in other words, I need the following items/corrections/documents submitted immediately – respectfully. However, the application will not be deemed complete until Alaska residency has been verified. Brandon, will you be applying for the PFD once January rolls around?

- **MJ-00 Application Certifications (you submitted a corrected cover page, but what I need is page 1 of the MJ-00 itself to be corrected):**
    - The DBA for each of MJ-00's is inadequate. You need to put the doing-business-as name not "same as above" even if it is the same. ALSO, please add "shop" sort of like a unit number to the premises address on page 1.

- **MJ-09 Statement of Financial Interest (you submitted a corrected cover page, but what I need is page 1 of the MJ-00 itself to be corrected):**
    - The DBA for each of MJ-09's is inadequate. You need to put the doing-business-as name not "same as above" even if it is the same. ALSO, please add "shop" sort of like a unit number to the premises address on page 1.

- **MJ-01 Operating Plan (this time only send me the corrected page, I need the entire page completed, but it can be only that one page):**
    - Page 12, first box: will you please remove "or snail mail", the notice really needs to be submitted to enforcement by email (sorry, maybe I confused you) since Metrc does not have that capability right now. On this same box, the answer does not address how you are going to store the marijuana waste during that 3-day period, so just expand upon the answer already in the box with the little correction just mentioned at the beginning of this paragraph. Make sure that the answer here is consistent with your answer on page 4 of MJ-04.

- **MJ-04 Cultivation Supplemental:**
    - I did not ask for this on my original incomplete letter, but will you please make the first box on page 4 of MJ-04 is consistent with page 12 of MJ-01. In other words, elaborate further on your response here but make sure is consistent with page 12 of MJ-01.
    - Page 5: the answer to in this box still does not address 3 AAC 306.465, please just add to the answer explaining how you will comply with that regulation.

- **Publisher's Affidavit:**
    - I did not see in your corrections a copy of the original newspaper ad. I have the original publisher's affidavit (I attached it here), but it does not have a copy of the actual ad, I need to see the language that newspaper showed.

Thank you
