Alaska Marijuana Control Board

Cover Sheet for Marijuana Establishment Applications

What is this form?

This cover sheet **must** be completed and submitted any time a document, payment, or other marijuana establishment application item is emailed, mailed, or hand-delivered to AMCO's main office.

Items that are submitted without this page will be returned in the manner in which they were received.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Absolem's Garden, LLC	**License Number:**		12612	
License Type:	Limited Marijuana Cultivation Facility				
Doing Business As:	ABSOLEM'S GARDEN				
Physical Address:	13247 East Wycoff Drive				
City:	Palmer	**State:**	AK	**Zip Code:**	99645
Designated Licensee:	Lorrie Moffitt				
Email Address:	absolems.garden@gmail.com				

Section 2 – Attached Items

List all documents, payments, and other items that are being submitted along with this page.

Attached Items:	MJ-04 Cultivation Supplemental page 4 and sample retail label with corrections as requested in AMCO email dated August 24, 2018.

OFFICE USE ONLY					
Received Date:		Payment Submitted Y/N:		Transaction #:

Alaska Marijuana Control Board

Operating Plan Supplemental
Form MJ-04: Marijuana Cultivation Facility

What is this form?

This operating plan supplemental form is required for all applicants seeking a marijuana cultivation facility license and must accompany **Form MJ-01: Marijuana Establishment Operating Plan**, per 3 AAC 306.020(b)(11). Applicants should review **Chapter 306: Article 4** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of the statutes and regulations.

If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020 and 3 AAC 306.420(2).

What additional information is required for cultivation facilities?

Applicants must identify how the proposed establishment will comply with applicable regulations regarding the following:

- Prohibitions
- Cultivation plan
- Waste disposal
- Odor control
- Testing procedure and protocols
- Packaging and labeling

This form must be completed and submitted to AMCO's main office before any new or transfer application for a standard marijuana cultivation facility or limited marijuana cultivation facility license will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility's operations. Include information regarding the flow of marijuana from seed or clone to harvest and transfer from your premises:

Plantings will be created from either clones or seeds.

Clones will be taken from either mother plants, or from developing vegetative plants (before they are moved to the flowering stage.) Seedlings/Clones will be nurtured for approximately 4 weeks in the vegetative room until their viability can be assured.

They will then be considered vegetative plants adn provided with a METRC tag.

Vegetative plants will be cultivated for approximately 4 more weeks in the Vegetative Room. They will be hand watered and fed, and will reside under the appropriate spectrum of light for 18 hours per day.

When they reach the appropriate level of maturity, they will move to the Flowering Rooms where they will be automatically fed/watered and will be under the appropriate spectrum of light for 12 hours per day. Plants are monitored daily and any anomalies addressed immediately through modification to the nutrient concentration, control of temperature or humidity as necessary.

When the buds have reached their full potential the plants will be flushed with pH negative water to remove residual nutrients from their systems. They will then be harvested, trimmed and dried to achieve optimal relative humidity.

The final products will be weighed, packaged, manifested and transported to retailers or manufacturers for eventual sale to consumers

Section 3 – Prohibitions

Review the requirements under 3 AAC 306.405 and 3 AAC 306.410.

3.1. I certify that the marijuana cultivation facility will not:	Initials
a. sell, distribute, or transfer any marijuana or marijuana product to a consumer, with or without compensation;	[ ]
b. allow any person, including a licensee, employee, or agent, to consume marijuana or marijuana product on the licensed premises or within 20 feet of the exterior of any building or outdoor cultivation facility; or	[ ]
c. treat or otherwise adulterate marijuana with any organic or nonorganic chemical or compound to alter the color, appearance, weight, or odor of the marijuana.	[ ]

Section 4 – Cultivation Plan

Review the requirements under 3 AAC 306.420 and 3 AAC 306.430.

4.1. Describe the size of the space(s) the marijuana cultivation facility intends to be under cultivation, including dimensions and overall square footage. Provide your calculations below:

Absolem's Garden will operate as a limited marijuana cultivation facility, and will have a cultivation area of less than 500 square feet.

The spaces in the facility dedicated for cultivation will consist of 14 flood irrigation tables 4'x8' at 32 square feet each for a subtotal of 448 square feet; 1 table 2'x8' and 1 table 4'x4', at 16 square feet each for mother plants for a subtotal of 20 square feet; and 1 clone rack at 1.5'x3' for a total of 4.5 square feet. This provides a total of 484.5 square feet of cultivation space.

Alaska Marijuana Control Board

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

4.2. The proposed area(s) for cultivation are clearly identified on the Form MJ-02: Premises Diagram that is submitted with this application. [ ]

Answer "Yes" or "No" to the following question: Yes No

4.3. Will the marijuana cultivation facility include outdoor production? [ ] [X]

If "Yes", describe the outdoor structure(s) or the expanse of open or clear ground and how it is fully-enclosed by a physical barrier:

4.4. Describe the method(s) used to ensure that any marijuana at the marijuana cultivation facility, whether indoors or outdoors, cannot be observed by the public from outside the facility:

Absolem's Garden will have no windows. This will prevent the public from observing activities within the cultivation facility.

4.5. Describe the marijuana cultivation facility's growing medium(s) to be used:

Absolem's Garden will utilize Canna Coco coir , perlite, and rockwool cubes for the growing medium.

4.6. Describe the marijuana cultivation facility's fertilizers, chemicals, gases, and delivery systems, including carbon dioxide management, to be used:

Absolem's Garden will use liquid nutrients mixed with water and distributed via a timed drip irrigation system. The Canna family of nutrients (Canna A and Canna B, Cannazyme and Rhizotonic) will be predominantly used. We will augment these with Advanced Nutrients Cal-Mag and Bud Igniter; and Heavy 16 Prime and Fire. We use Advanced Nutrients pH up and pH down.

Neem oil will be used as insecticide/fungicide if necessary.

No Carbon Dioxide generators or other gases will be used.

RECEIVED
AUG 15 2018
ALCOHOL MARIJUANA CONTROL OFFICE
STATE OF ALASKA

4.7. Describe the marijuana cultivation facility's irrigation and waste water systems to be used:

Absolem's Garden will use a small bore, timed, drip irrigation system to deliver water and nutrients directly to each plant. Most of the water will be utilized by the plants, any wastewater generated will be routed to the on-site septic system.
Domestic wastewater generated by the restroom and hand-washing facilities will be disposed of via the on-site septic system.

Section 5 – Waste Disposal

Review the requirements under 3 AAC 306.740.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

5.1. The marijuana cultivation facility shall give the board at least three days written notice required under 3 AAC 306.740(c) before making marijuana waste unusable and disposing of it.

5.2. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including wastewater generated during marijuana cultivation, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown:

Waste marijuana will be collected, stored in the secure area of the facility and then ground for disposal. Ground waste will be mixed with spent growing medium (Coco Coir and perlite) and shredded office paper at a ratio of at least 50:50. The unusable material will be removed from the facility and deposited on our on site compost pile.

The wastewater produced from the feeding process will be piped into our on-site wastewater disposal system. Some wastewater will be collected from the mothers and clones, and this will be deposited on the compost pile to facilitate the composting process.

Section 6 – Odor Control

Review the requirements under 3 AAC 306.430.

Answer "Yes" or "No" to the following question:	Yes	No
6.1. Have you received an exemption from your local government for the odor control requirement set forth in 3 AAC 306.430(c)(2)?	☐	☑

If "Yes", you must be able to certify the statement below. Read the following and then sign your initials in the box:	Initials
I am attaching to this form documentation of my odor control exemption from the local government.	

If "No" to question 6.1., describe the odor control method(s) to be used and how the marijuana cultivation facility will ensure that any marijuana at the facility does not emit an odor that is detectable by the public from outside the facility:

Carbon filters will be placed on each exhaust fan to prevent odors from leaving the facility.

The facility will maintain a slightly negative air pressure so that any air leaving the building will do so through the carbon filters.

Section 7 – Testing Procedure and Protocols

Review the requirements under 3 AAC 306.455 and 3 AAC 306.465.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box:	Initials
7.1. I understand and agree that the board or director will, from time to time, require the marijuana cultivation facility to provide samples of the growing medium, soil amendments, fertilizers, crop production aids, pesticides, or water for random compliance checks.	
7.2. I will ensure that any individual responsible for collecting random, homogenous samples for required laboratory testing under 3 AAC 306.455 will prepare the necessary accompanying signed statement, provide the signed statement to the marijuana testing facility, and maintain a copy as a business record under 3 AAC 306.755.	

7.3. Describe the testing procedures and protocols the marijuana cultivation facility will follow:

Absolem's Garden will provide random samples of each harvested, cured and segregated batch for quality and verification purposes.

A designated person will be responsible for collecting each sample and then signing a statement indicating that the sample was randomly selected from cured marijuana of the same batch.

This statement will be provided to the testing facility and a copy retained on site as permanent record. The statement will accompany the material as it is transported from the cultivation facility to the testing facility.

It is understood that at times, the Board may require samples of growing media, nutrients and other materials utilized in the cultivation of marijuana by Absolem's Garden. It is further understood that the cost and facilitation of these random compliance tests will be borne by Absolem's Garden and will follow the same protocol as the testing of the marijuana itself.

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

Section 8 – Packaging and Labeling

Review the requirements under 3 AAC 306.470 and 3 AAC 306.475.

Answer "Yes" or "No" to the following question:	Yes	No
8.1. Will the marijuana cultivation facility be packaging marijuana for a retail marijuana store to sell to a consumer without repackaging?	☒	☐

If "Yes", describe how the marijuana cultivation facility will ensure that the marijuana sold will meet the packaging requirements in 3 AAC 306.470, and provide a sample label that the facility will use to meet the labeling requirements set forth in 3 AAC 306.475:

Absolem's Garden will be providing packages to retailers that best meet their needs. Some retailers have requested that our product be packaged ready for resale. Absolem's Garden will not package retail marijuana in packages greater than one ounce, our labels will not have printed images that target persons under 21 years of age, our packages will be non-toxic and will not impart any toxic substances to the marijuana, our packages will be prepared in compliance with 3 AAC 306.470. Absolem's Garden will affix the appropriate warning information on our packages as described in 3 AAC 306.475. (See attached sample label).

Answer "Yes" or "No" to the following question:	Yes	No
8.2. Will the marijuana cultivation facility be packaging marijuana in wholesale packages?	☒	☐

If "Yes", describe how the marijuana cultivation facility will ensure that the marijuana sold will meet the packaging requirements in 3 AAC 306.470, and provide a sample label that the facility will use to meet the labeling requirements set forth in 3 AAC 306.475:

All wholesale packages prepared by Absolem's Gardens will meet the following requirements: less than 5 lbs., a single strain (or if a mixture of strains, will be clearly identified as such), tracking labels will be affixed to each package. Labels will provide the following information: Our name and license number, the net weight of the product, the harvest batch a list of all pesticides, fungicides and herbicides used. The testing laboratory used and the results of the required tests (as required by 3AAC 306.645). (See attached Wholesale label sample)

I certify that as a marijuana cultivation facility, I will submit monthly reports to the Department of Revenue and pay the excise tax required under AS 43.61.010 and AS 43.61.020 on all marijuana sold or provided as a sample to a marijuana establishment, as required under 3 AAC 306.480.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
