Susan,

I sent you an incomplete letter on 1/26/18. I have attached it here, and I have also attached the email I sent.

Please note that this email does not extend the 90-day deadline, as outlined at the bottom of the incomplete letter, to get this application deemed complete.

Thank you
Jane

Subject: incomplete

I just checked my application and it says it's incomplete and it was updated as of Jan. 25, 2018. All of the paperwork was turned in back in Sept. 2017. I do not mean to be an inconvenience, but we have been waiting a very long time to get on the docket and if there is something I can do right now to help that along, please tell me. These are the things not marked complete. I haven't received any notice from your offices.
