Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Enter information for the business seeking to be licensed, as identified on the license application.

Received by AMCO 3-1-18

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

Green Ghost Farms, LLC will have policies and training in place to prevent individuals under 21 from entering any part of the licensed premises. The entire premises will be designated as a restricted access area with signage posted on and around the building stating "Restricted Access Area: Visitors Must Be Escorted" as well as signs stating, "No One Under 21 Year of Age Allowed" and "Video Surveillance in Progress". Video surveillance cameras will be visible throughout the facility as well as around the exterior perimeter of the building to continuously monitor the premises and to deter unauthorized and underage individuals from attempting to access the premises. There will be one entrance for Nick and his possible future employees which will remain locked at all times and will require an industrial key to unlock the door. Nick will only have two copies of this key that each say, "Do Not Duplicate". Nick will obtain one new key per employee – shall he hire employee in the future. The door will also be equipped with a door sensor, connected to the security alarm system, that will be triggered if an attempted intrusion occurs. If triggered, both an audible alarm and an electronic notification will be sent to the third party off-site monitoring center as well as to Nick's mobile phone.
Any visitors to the facility, with the exception of law enforcement, AMCO Enforcement or other duly authorized individuals, must be pre-arranged with Nick. Visitors will be required to produce a valid, government issued, photo ID proving they are at least 21 years of age before being allowed to enter the premises. Any individual that does not produce said ID will be informed to exit the property immediately and that law enforcement will be contacted for back up if they do not comply promptly.

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

To maintain the security of Green Ghost Farms, LLC's facility and all marijuana, access to the facility will be monitored and restricted at all times. Access will only be granted to employees and Nick, with the limited exception of scheduled, pre-approved visitors, law enforcement, AMCO enforcement or other duly authorized agents. The facility will have a commercial grade lock that will remain locked even during business hours. Additionally, Green Ghost Farms, LLC's signage indicating that any members of the public are not allowed un-escorted access, will be clearly displayed on the door. The entire facility is a designated restricted access area and the entry door will remain locked at all times. Employees will be trained to always ensure the door is closed after them as they either enter or leave the secured access area. Distinct and apparent cameras will be placed throughout and around the facility to encourage people to not attempt access. The facility will be equipped with a 24-hour monitoring alarm system, exterior lighting, and video surveillance. All entrances, exits, every portion of the secured storage areas, and the exterior of the building will have security cameras installed to monitor and identify all activity. All members of the public who are allowed access to the facility must check in at the front entrance door and obtain a visitor badge, which must be worn and clearly displayed at all times while on the premises.

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

All visitors granted access into Green Ghost Farms, LLC's facility will be signed into the visitor's log noting their name, the date, time in and out of the restricted space, and the purpose of their visit. The visitor's log and copies of all visitor information will be stored on-site as business records in the secured locked cabinet and will be made available to AMCO and AMCO Enforcement upon request. Visitors will be escorted by Nick or an employee at all times while inside the facility, and any additional information, activity, or behavior will be recorded, as necessary, during the visit and made part of the visitor log. Employees escorting visitors will continuously monitor them during the visit and record any notable activity in the visitor log. At no time will there be more than 5 visitors per supervising employee at a time. The log and associated notations will be kept as a regular business record and will be readily produced to AMCO and AMCO Enforcement upon request.

Received by AMCO 3.1.18

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Exterior lighting will be placed on both the front and side of the facility to ensure video cameras can produce a clear view to adequately identify individuals within 20 feet and to ensure the safety of Nick and any future employees so that intruders won't be able to lurk in the dark. Green Ghost Farms, LLC will have a total of three (3) 70 watt metal halide lights used in front of the facility above the sealed garage door, and on either side of the facility over the man door, which will also be used at the facility's main entrance.

Received by AMCO 3.1.18

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

Green Ghost Farms, LLC will contract with a third party security company to install the alarm system, maintain the equipment, periodically test the devices and continuously monitor the facility at an off-site security monitoring center. The alarm system will be set up to monitor for intrusions in all areas of the building, active during closed hours, as well as door sensors on every exterior door. If triggered, an automatic, electronic alert will be sent to the security monitoring center as well as to Nick's cell phone and/or the general manager. This will also trigger an audible alarm to help deter potential intruders. Live security footage will also be accessible to Nick and/or the general manager via their cellular phones so they may keep an eye on the facility even when they are away.
The alarm system will be active at all times that the facility is closed. Either Nick, or the last employee to leave the facility each night will activate the alarm system and the first employee, or Nick, to arrive in the morning will deactivate the system. Nick will also be living on site along with his four (4) American Bulldogs and one (1) Chihuahua, whose main job is to alert Nick of persons who are unknown to the dogs that enter the premises or surrounding area.
In the event that the alarm system sends an electronic alert to local law enforcement to notify them of an unauthorized breach, Nick and any employees will evacuate the building (if it's safe to do and necessary) to a pre-determined safe location. A designated employee will take a head count of employees and any visitors that may have been on the premises to ensure everyone is accounted for. Management will await instruction from law enforcement and comply with all directives. Once it is safe to do so, employees will return to the facility and inspect for property damage, theft, take inventory and submit all necessary and requested documentation to law enforcement officials and to AMCO enforcement. Additionally, any event that occurs on the licensed premises that involves local law enforcement will be promptly reported to AMCO Enforcement via email.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

Video surveillance will continuously monitor all areas of the premises where marijuana is present, including areas where marijuana is grown, processed, packaged, and stored. Marijuana will not be permitted anywhere outside of the video monitored processing, cultivating, and/or curing areas unless being transported by authorized employees or Nick with a valid transport manifest. There will be a zero tolerance policy for unacceptable employee/licensee handling of marijuana. All employees will complete mandatory training in recognizing such activity, and are required to notify ownership or management if they suspect such activity is occurring. In the event that an employee is caught stealing or illegally distributing marijuana, Nick will notify local law enforcement immediately, comply with all directives, and provide all necessary information and records for the investigation as well as follow company disciplinary protocols up to and including termination. All reports and documentation concerning a suspected or actual theft will be maintained by the company for five (5) years and made available to AMCO upon request. All employees caught stealing will be identified to AMCO Enforcement.

3.7. Describe your policies and procedures for preventing loitering:

The exterior of the facility will remain well-lit with 24-hour video surveillance. "No Loitering" signs will be prominently posted around the property as well as signage stating that the premises is under video surveillance. Either Nick or a designated employee will periodically monitor the property for loitering/unauthorized individuals. Additionally, Nick's dogs will bark when/if they see individuals on the property which will alert Nick and/or any employees to check the area for loiterers. The loitering individuals will be told to vacate the premises or law enforcement will contacted. Any visitors at the facility will be asked to leave the premises once the visit has ended.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use. [initials]

Received by AMCO 3.1.18

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility. [initials]

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image. [initials]

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application. [initials]

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board). [initials]

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

Video surveillance cameras will be placed to cover all areas of the facility, and the interior and exterior of the entrance to the facility. Video surveillance will cover cultivation areas and areas where waste is made unusable. The video cameras will be placed to ensure capability of producing a clear facial view of individuals inside the facility or within 20 feet of any entrance. Two (2) to four (4) exterior cameras will be used to ensure this capability. Green Ghost Farms, LLC will ensure there is no blockage to any camera's view by any sort of common obstruction such as plants, hoods, etc. A failure notification system will be installed to provide audible and visual notification of any failure in the surveillance system so that it can be immediately resolved. During a power outage all video cameras and recording equipment will be able to run on emergency power with a battery backup system to ensure continued operation for at least one (1) hour. Video surveillance footage will viewable by Nick via his cellular phone.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

All surveillance recording equipment and footage will be stored in a locked cabinet in the office area, with backups on site. Only Nick will have a key to the locked cabinet and the key will be marked with "Do Not Duplicate". The security system will be accessible by password to prevent data tampering. Recorded data will be stored for a minimum of forty (40) days, and will be uploaded to a separate hard drive and stored longer in the event of a criminal, civil, or administrative investigation. Recordings will be stored with a time and date stamp, and archived in a format to prevent against alteration. Recordings will be available to AMCO and local law enforcement upon request. Nick will have remote access to real time video recording and to monitor the premises and all operations virtually on his mobile device.

Received by AMCO 3.1.18

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises: Initials

a. **all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years** *(records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises)*; [Nil]

b. **a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;** [Nil]

c. **the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;** [Nil]

d. **records related to advertising and marketing;** [Nil]

e. **a current diagram of the licensed premises, including each restricted access area;** [Nil]

f. **a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;** [Nil]

g. **all records normally retained for tax purposes;** [Nil]

h. **accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;** [Nil]

i. **transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and** [Nil]

j. **registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.** [Nil]

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

Business records will be stored within the office area in the facility which is only accessible to the Nick and authorized employees. All hard copy records will be scanned to local hard drives and backed up to an additional hard drive. Hard copies (if original hard copies needed to be kept in addition to electronic versions such as Visitors Logs) will be kept in the designated secured storage area, in a separate locked cabinet that is accessible only to Nick. Facility records will be managed by authorized agents in accordance with standard retention policies to ensure that business records are stored in a consistent and searchable manner. Every 6 months, Green Ghost Farms, LLC will do a manual backup to an external hard drive. The hard drive will be locked in the record cabinet located in the office area. Hard copies of documents will be kept for at least 7 (seven) years and the company has no intention of destroying any electronic copies of the business records.

Received by AMCO 3.1.18

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc. [initials]

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745. [initials]

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745. [initials]

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. A marijuana establishment and each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. Each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment. [initials]

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises. [initials]

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired. [initials]

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

Nick does not plan on hiring any employees within the first year of operation. Shall Nick decide to hire employees in his business future, he will hire all employees on a probationary period during which time they will receive training and evaluation specific to their position. Training will include marijuana industry topics; safety precautions and procedures; legal issues; and state, local, and federal regulations. Training will take place throughout the year, as well as when topics arise that need further explanation. Nick will personally present or arrange training and education to employees. Within the probationary period, all new employees will be required to meet with Nick to learn the company's business approach and to adopt the standard of service. Educational packets will be provided to each cultivation employee to be read and reviewed. The educational packets will discuss relevant cannabinoids in the marijuana plant, strain ratios, marijuana benefits and risks, and general Alaska marijuana law. Packets will also include safety procedures that specifically address the facility's security measures and controls for the prevention of diversion, theft, and loss of marijuana such as emergency response procedures and state and federal statutes regarding confidentiality. As proper safety and security procedures are of the utmost importance to Nick, the most up-to-date reading materials will be available to employees at all times. Nick will conduct quarterly staff meetings with the purpose of updating all employees on new state and local regulations, assuring that each employee is performing within company procedure, assessing any procedural changes that are needed, and addressing any comments or concerns from the staff. Prior to beginning work, employees will be expected to understand: (1) Alaska laws, regulations, and codes governing the marijuana industry and marijuana establishments; (2) all of the permitting requirements to act as a marijuana handler (including obtaining a Marijuana Handler card from state approved course provider prior to commencing employment) and to work in a marijuana establishment; (3) Green Ghost Farms standards, operational protocol, and best practices with regard to all phases of the cultivation and sale of marijuana; (4) general safety procedures and security protocol; (5) how to think defensively if threatening situations occur, and how to recognize the signs of impairment, drug abuse, and instability in co-workers; (6) in-depth information about our particular strains and marijuana related products; (7) in-depth information on the requirements of each room, task, and system; (8) the general federal, state, and local employment regulations by which Green Ghost Farms, is governed; and (9) cultivation-specific education. To ensure full coverage for each position, all employees will be cross-trained on the requirements of each job. Green Ghost Farms will encourage staff to attend seminars, conferences, and workshops, and Management will maintain a library of resources on marijuana topics, available to employees at all times. The state and local marijuana regulations and laws will be posted in the facility for reference.

Received by AMCO 3.1.18

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present. [initials]

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded. [initials]

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace. [initials]

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d). [initials]

Answer "Yes" or "No" to each of the following questions:	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	☐	☑
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	☐	☑

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

The cultivation facility is an un-attached garage located next to Nick's residence. Nick will begin operations as the only employee of Green Ghost Farms and will utilize the toilet and handwashing facilities within his home. If/when employees are hired in the future, Nick plans to obtain a porta potty with a handwashing sink to be located right outside the facility.

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

A Metrc generated transport manifest will accompany all marijuana in transit. Green Ghost Farms will send a copy of the manifest with the product, and file an additional copy on the premises as a business record. The manifest will document the strain name, type of product, batch number, weight, name of the transporter and handler's ID, time of departure and expected delivery, and the make, model, and license plate of the transporting vehicle. The transport vehicle will travel directly between destinations without making any unnecessary stops, and marijuana will be sealed in not more than five (5) pound containers inside a locked storage compartment within the vehicle or bed of a truck for wholesale transactions and up to one-pound containers for re-sale by retailers without re-packaging. At no time during transit will marijuana be visible outside the vehicle. The shipping container will have a label stating that a licensed testing facility has tested each batch in the shipment, and list: (1) the date of final testing; (2) the cannabinoid potency profile, expressed as a range of percentages that extends from the lowest percentage to highest percentage of concentration for each cannabinoid listed from every test conducted on that strain of marijuana from the same marijuana cultivation facility within the last three months; (3) a statement listing the results of microbial testing; and (4) a statement listing the contaminants for which the marijuana was tested, including molds, mildew, filth, herbicides, pesticides, fungicides, and harmful chemicals. Any packaging done at the facility will be performed in an area specifically set aside for packaging and monitored with 24-hour surveillance. Packaging will be uniform with labels secure and prominently displayed. Green Ghost Farms will use certified scales in compliance with the Alaska Weights and Measures Act, and will maintain registration and inspection reports at the facility. After Nick packages marijuana, he will then place the marijuana in sanitized, air-tight containers, labeled with all compliant labeling information, and given a barcode for the inventory control system. Plastic packaging will be heat-sealed without an easy-open tab, dimple, corner, or flap. Packaged marijuana will be stored in a secured area until ready for transport. All packaging will be inspected, accepted or rejected, and recorded in the log, and the on-site manager or Nick will check all final packages to ensure that they will secure marijuana from contamination and not impart toxic or deleterious substances. Labels will include: (1) the name and license number of the cultivation facility; (2) the date the marijuana was harvested; (3) the harvest batch number assigned to the marijuana; (4) the date the marijuana was packaged; (5) the net weight and the quantity of usable marijuana packaged in a standard of measure compatible with the inventory tracking system; (6) a complete list of all pesticides, fungicides, and herbicides used in the cultivation of the marijuana. Green Ghost Farms may contract with a third-party transport company and will ensure they have their marijuana handler permits.

Received by AMCO 3.1.18

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700. [Nil]

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle. [Nil]

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport. [Nil]

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport. [Nil]

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment. [Nil]

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received. [Nil]

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest. [Nil]

Section 9 – Signage and Advertising

9.1. Describe any signs that you intend to post on your establishment with your business name, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

Green Ghost Farms, LLC will not post any signs for the cultivation facility with the business name on it.

Received by AMCO 3.1.18

Form MJ-01: Marijuana Establishment Operating Plan

9.2. Describe any advertising you intend to distribute of your establishment. Include medium types and business logos (photos or drawings may be attached):

Green Ghosts Farms, LLC advertising and marketing plans to utilize the following medium types when distributing advertisements:

- Newspaper ads
- radio ads
- social media to feature specific strains
- magazine ads
- *or any other similar marketing platform

Advertisements will include the following logo, and will include each warning statement verbatim as they are listed in the regulations, photos of packaged marijuana, photos of plants grown in the facility and testing results.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
