---

Harold,

I reviewed your corrections. Some more work needs to be done:

- MJ-00 Application Certifications
  - The boxes on this application requires handwritten initials. The initials appear to be a computer text font.

- MJ-02 Premises Diagram
  - Please add to you legend that the red line is also the proposed licensed premises.
  - One thing I just wanted to clarify from my original incomplete letter:

    - Remove the cameras (we don't require them anymore) This section right here is an excerpt from my original incomplete letter. I wanted to clarify that you DO need to have cameras in the required areas, but we just don't request them to be on shown on the diagram.

- MJ-05 Manufacturing Supplemental:
  - Your new MJ-05 had more products than originally. This new version needs to be improved (with the disclaimer that the final approval is the Board):

    - Product: Vape Cartridge
      - I did not see a "Sample Vape Cartridge" attached to the application
      - Please provide photo(s), drawings, or graphic representation of the packaging for the product
      - You only sent one Product Labe sample for all your concentrates, are you using this one label for all the products? Should there not be a label for each product that includes the name of the product?

    - Product: Concentrate Applicator
      - Please provide photo(s), drawings, or graphic representation of the packaging for the product
      - You only sent one Product Labe sample for all your concentrates, are you using this one label for all the

products? Should there not be a label for each product that includes the name of the product?

- Product: Hash
  - You only sent one Product Labe sample for all your concentrates, are you using this one label for all the products? Should there not be a label for each product that includes the name of the product?

- Product: Kief
  - You only sent one Product Labe sample for all your concentrates, are you using this one label for all the products? Should there not be a label for each product that includes the name of the product?

- Product: Shatter
  - Please provide photo(s), drawings, or graphic representation of the packaging for the product
  - You only sent one Product Labe sample for all your concentrates, are you using this one label for all the products? Should there not be a label for each product that includes the name of the product?

o Page 6: please put your waste disposal in the box provided, you may attach additional information, but not in lieu of providing the answer in the box.

- Entity Documents
  - o I need to ask whether the fact that the LLC has Treasurer is going to be an issue. So please work on the corrections above while I get the answer to this.

Please note that this email does not extend the 90-day deadline you have to get this application deemed complete by our office. That deadline is 4/30/18.

Respectfully,

Jane

Subject: Frog Mountain LLC License # 14020 FINAL DOCUMENTS PDF

Hello Jane,
Hopefully this works I compressed the PDF to a smaller size. I will be calling you to see that you received this.

Thanks,
Jason Pfeifer
