Re: Limited Marijuana Cultivation Facility #15223

Dear applicant,

The AMCO Office is reviewing the documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted**.** Please be sure to read the entire letter.

- **MJ-00 Application Certifications**
  - Page 1: the "Doing Business As" portion under Section 1 should say- Rock Hard Nugz AK since that's what your online application states. Please correct.

- **MJ-01 Operating Plan**
  - Page 2, second box: please accordingly incorporate in the Operating Plan the following: any visitor to the restricted access area must show identification to prove that person is 21 years of age or older, and obtain a visitor identification badge before entering the restricted access area.
  - Pages 12, first box: please address how you will store and dispose of any solid waste.
  - Pages 12-13: please accordingly incorporate in the Operating Plan the following: the unusable, grinded plant waste must be mixed with at least an equal amount of other compostable or non-compostable materials.
  - Page 15, first box: please re-review 3 AAC 306.470 & 3 AAC 306.475 and expand upon your answer to this box describing how you will meet those regulations.

- **MJ-02 Premises Diagram**
  - Page 1: the "Doing Business As" portion under Section 1 should say- Rock Hard Nugz AK since that's what your online application states. Please correct.
  - Please provide a google-like, zoomed in, aerial view diagram/map of the building in which this cultivation premises will be. In that aerial view, you need to clearly show the building and what surrounds that building (what business, other buildings, streets, etc.), please label it.
  - The diagrams of the basement you submitted of the proposed cultivation facility needs some work, please show the following (more questions may come up once we receive a new diagram from you):
    - Much of the information provided on the diagram is difficult to distinguish and is not consistent with MJ-04. In other words, while comparing the calculations from

MJ-04 and the diagrams submitted, the mother, vegetating, flowering areas, and the total square feet under cultivation do not match the dimensions on the diagram. Please make sure the diagrams are congruent with the page 2 from MJ-04. The calculations/measurements must be consistent. For example, on the diagrams, I do not see the 40sqft dedicated to the mother plants. Also, the diagram says, 83.89sqft for cloning/mothers. Additionally, please use consistent measurements, such as feet only. For example, please convert the measurements for the vegetating plants from inches to feet. Please clarify and correct that accordingly; be very specific.

- Many dimensions on the diagrams are blurry and too difficult to read. Please provide clearer dimensions.
- Remove the cameras from all/any of the submitted diagrams.
- Clearly label the surveillance area/room/rack.
- Please label all entrances/exits to and within the facility.
- Outline the entire perimeter of the proposed licensed premises and restricted access area (use separate colors and labels). Please remove the red outline from the measurements/calculations. Generally, outlines are used to show the restricted access area and licensed premises.
- If you are going to display an enlarged picture/drawing of the shelves/tables/trellises for reference, please make this clear by labeling it.

- **MJ-04 Cultivation Supplemental**
  - Page 2: Please provide a detailed answer in this box that is congruent with the diagram from MJ-02. For example, on the diagrams, I do not see the 40sqft dedicated to the mother plants. Additionally, please use consistent measurements, such as feet only. For example, please convert the measurements for the vegetating plants from inches to feet. Furthermore, please specify what the 4 means for the vegetating plants, and the 16 for the flowering plants. Is it 4 or 16 tables, or 4 or 16 trellises?
  - Page 3, second box: please describe the marijuana cultivation facility's delivery systems to be used.
  - Page 3, third box: please expand upon your answer and make sure to answer the entire question.
  - Page 4, first box: please make sure that this box is congruent with pages 12-13 of MJ-01.
  - Page 6: please provide a sample of the label(s) (including logo(s) if you will have one) of how you will comply with the labeling and packaging under 3 AAC 306.470 & 3 AAC 306.475.

It is very important that you submit the above corrections and/or documents as soon as possible. AMCO staff needs adequate time to review the documents and determine if additional corrections and/or documents are necessary to complete your application. If you fail to complete this application within 90 days of the date of this notice, you must file a new application and pay a new fee, per 3 AAC 306.025(f).

Respectfully,

Jacqlene Drulis
